The Assignors and the Assignee may be referred to collectively as the "Parties."

WHEREAS, Assignor(s) has created certain new and useful improvements associated with **SPEAKER MOUNT AND ASSEMBLY AND METHOD OF DISENGAGING THEREOF** (property is referred to herein as the "Property" and described herein) and (i) has registered or (ii) has applied for the registration of patent(s) on the Property, which patent(s) and/or application(s) for patent(s) are recorded under Attorney Docket No. **6069.2.1NP** in the records of **JP WEBB**; it is the Assignors' intention to assign, transfer, convey, and grant all rights, title, and entire interest in the Property described below to Assignee; Assignee wishes to acquire the entirety of Assignors' right, title, and interest in the Property; and Assignors and Assignee are duly authorized and capable of entering into this assignment.

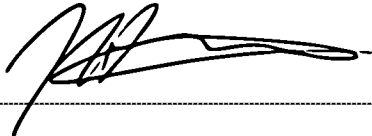

NOW, THEREFORE, the Parties agree as follows:

1. **ASSIGNMENT.** Assignor does hereby irrevocably and exclusively assign, transfer, convey, and grant to Assignee, within the Scope of this Assignment, the entire right, title, and interest in and to the Property and application, including any and all Patent Registrations granted on any division, continuation, continuation-in-part, reissue of said application, and the like, including any and all Letters Patent, and all rights under the International Convention for the Protection of Industrial Property as fully and entirely as the same would have been held and enjoyed by Assignor, had this sale and assignment not been made.
2. **Scope of this Assignment.** The Scope of this Assignment is the world.
3. **CONSIDERATION.** In consideration for the assignment set forth in Section 1, Assignee shall pay Assignor the sum of \$1 and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged.
4. **Representations and Warranties.** Assignor represents and warrants to Assignee: Assignor has the right, power and authority to enter into this Agreement; Assignor is the exclusive and legal owner of all right, title and interest, including all intellectual property rights, in the Property as described in Attachment A; The Property does not infringe the rights of any person or entity; There are no claims, pending or threatened, with respect to Assignor's rights in the Property; This Agreement is valid, binding and enforceable in accordance with its terms; and Assignor is not subject to any agreement, judgment or order inconsistent with the terms of this Agreement.
5. **Necessary Acts by Assignee.** Assignee agrees to perform any further acts and execute and deliver any documents that may be reasonably necessary to carry out provisions of this Agreement.

6. Necessary Acts by Assignor. Assignor hereby agrees to execute any documents that legally may be required in connection with the filing, prosecution and maintenance of said application or any other patent application(s) for the described Property, including additional documents that may be required to affirm the rights of Assignee in and to said Property, all without further consideration. Assignor also agrees, without further consideration and at Assignee's expense, to identify and communicate to Assignee, at Assignee's request, documents and information concerning the Property that are within Assignor's possession or control, and to provide further assurances and testimony on behalf of Assignee that lawfully may be required of Assignor in respect to the prosecution, maintenance and defense of any patent application or patent encompassed within the terms of this Agreement.
7. Authorization. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any and all Letters Patent referred to above to Assignee, as the Assignee of the entire right, title and interest in and to the same, for Assignee's sole use; and for the use of Assignee's legal representatives and successors, to the full end of the term for which such Letters Patent may be granted, as fully and entirely as the same would have been held by Assignor had this assignment not been made. Where this document is signed before the filing of an application associated with the Property, Assignor and Assignee each agree to permit the law firm filing this assignment document to write in the application number(s) and/or filing date(s) associated with the Property after the signing of this Patent Assignment.
