**NOT TO BE EXECUTED PRIOR TO EXECUTION  
OF ASSIGNMENT FROM INVENTOR**

**ASSIGNMENT AND AGREEMENT**

WHEREAS, **Cook Research Incorporated**, a corporation of the State of Indiana, having an office at 1 Geddes Way, West Lafayette, IN 47906, U.S.A. ("**Assignor**") has, by virtue of assignment, received right, title and interest to a certain invention or inventions related to "**MODULAR HANDLE COMPRISING A TRIGGER WIRE ACTUATION MECHANISM FOR A PROSTHESIS DELIVERY DEVICE**" and being described in U.S. Provisional Application No. 62/212,767, filed on September 1, 2015; U.S. Nonprovisional Application No. 15/244,501, filed on August 23, 2016; and any and all applications claiming the benefit thereof including the right of priority, (the "**Invention**" or "**Inventions**").

WHEREAS Assignor desires to assign to Cook Medical Technologies LLC, an Indiana limited liability company, having an office at 750 N. Daniels Way, Bloomington, IN 47404, U.S.A. ("**Assignee**") all of Assignor's right, title, and interest in, to, or under the Invention or Inventions described therein and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

Assignor hereby sells, assigns and transfers and does hereby confirm the previous assignment and transfer, unto Assignee and its successors, assigns, and legal representatives all of Assignor's right, title and interest in the Invention or Inventions, all of Assignor's entire right, title, and interest in the Invention or Inventions being in the United States of America and all other countries and states of the world, and all the rights and privileges in said application and under any and all Letters Patent or any continuation, division, renewal, or substitute thereof, and any reissue or re-examination thereof that may be granted in the United States and in any country or state of the world for the Invention or Inventions (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements).

Assignor authorizes Assignee to make application for such protection in its own name and maintain such protection in any and all countries foreign to the United States, and to invoke and claim for any application for patent or other form of protection for the Invention or Inventions, without further authorization from Assignor, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any document that may be required in any country in proof of the right of Assignee to apply for patent or other form of protection for the Invention or Inventions and to claim the aforesaid benefit of the right of priority.

Assignor requests that any and all patents for the Invention or Inventions be issued to Assignee in the United States and in all countries foreign to the United States or to such nominees as Assignee may designate.

Assignor agrees that, when requested, Assignor shall, without charge to Assignee, but at its expense, sign all papers, take all rightful oaths, and do all acts that may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection for the Invention or Inventions.
