ASSIGNMENT

This Assignment made by Paul M. Elizondo, II of Escondido, California, Assignor, to MEPS Real-Time, Inc., a Delaware corporation, having a place of business at 6451 El Camino Real, Suite C, Carlsbad, California 92009, Assignee.

WHEREAS, Assignor has invented a new and useful SYSTEM AND METHOD USING FREQUENCY HOPPING TO IDENTIFY ITEMS TAGGED WITH RFID TAGS IN AN ENCLOSED SPACE (the "invention"), for which Application No. 15/162,555 for United States Letters Patent was filed on May 23, 2016 (the "continuation application"), which is a continuation application of Application No. 14/142,749 filed on December 28, 2013 (the "parent application"), which claims the benefit of provisional Application No. 61/747,214 filed on December 29, 2012 (the "provisional application"), and

WHEREAS, Assignor believes himself to be the original, first, and sole inventor of the invention disclosed and claimed in the continuation application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to the invention, the continuation application, and any Letters Patent that may be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for the sum of ten dollars (\$10) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the entire right, title, and interest in and to the invention, the continuation application, any and all applications claiming the benefit of or priority to the continuation application, and any Letters Patent that may be granted for the invention in the United States and throughout the world, whether granted on the continuation application, or on any further continuation, divisional, continuation-in-part, reissue applications, or reexamination

ASSIGNMENT

certificate, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which the continuation application is entitled under international conventions, treaties, or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, maintaining, sustaining, reissuing, reexamining, reviewing under any provision of the America Invents Act, or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to the invention, the continuation application, any and all applications claiming the benefit of or priority to the continuation application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the continuation application or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

ASSIGNMENT

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date written herein below.
