ASSIGNMENT

Whereas, Patrick Benaben hereinafter called the "Assignor", made the invention described in PCT Application No. PCT/US15/25706 filed April 14, 2015; and United States patent application titled Ionic Liquid Electrolyte and Method to Electrodeposit Metals, filed on April 14, 2015 and assigned Application No. 14/686,184;

Whereas, Neo Industries, a corporation organized and existing under the laws of Indiana, having a place of business at 1775 Willowcreek Road, Portage, Indiana 46368, hereinafter called the "Assignee", desires to acquire the entire right, title and interest in and to the invention and the patent applications identified above, and all patents which may be obtained for the invention, as set forth below;

Now, Therefore, in consideration of valuable and legally sufficient consideration, the receipt of which by the Assignor from the Assignee is hereby acknowledged, the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer to the Assignee, the entire right, title and interest in and to the invention and the patent applications identified above, and any patents that may issue from the patent applications identified above, including the full right to claim all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

The Assignor hereby covenants and agree, for both the Assignor and the Assignor's legal representatives, that the Assignor will assist the Assignee in the prosecution of the patent application identified above; in the making and prosecution of any other patent applications that the Assignee may elect to make covering the invention identified above; in vesting in the Assignee like exclusive title in and to all such other patent applications and patents; and in the prosecution of any interference which may arise involving said invention, or any such patent application or patent; and that the Assignor will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to carry out the terms of this Assignment.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment.
