(b) all United States and foreign patents and patent applications (i) to which any of the Patents directly or indirectly claims priority, and (ii) for which any of the Patents directly or indirectly forms a basis for priority.

The Patent Rights conveyed by this assignment include all possible rights including but not limited to the right to claim priority under the laws of the United States, the Paris Convention, and any foreign countries, to the inventions described in the aforesaid patents and applications, and all further provisional patent applications, utility patent applications, continuations, continuation-in-parts, divisionals, reissues, reexaminations, and extensions thereof, these rights to be held and enjoyed by Assignee to the full end of the term for which the Letters Patent are granted and any extensions thereof as fully and entirely as the same would have been held by Assignors had this assignment and sale not be made, and the right to sue for, and recover for past infringements of, or liabilities for, any of the rights relating to any of the patent applications or patents resulting therefrom.

Assignor hereby covenants that no assignment, sale, license, agreement or encumbrance has been or will be entered into which would conflict with this Assignment.

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models, or other governmental grants or issuances that may be granted upon any of the Patent Rights in the name of Assignee, as the assignee of the entire interest therein.

Assignor hereby covenants and agrees to execute all instruments or documents required or requested for the making and prosecution of the Patent Rights in the United States and in all foreign countries, including, but not limited to, any provisional, continuation, continuation-in-part, divisional, renewal or substitute application thereof, and as to letters patent any reissue, re-examination, or extension thereof, and for litigation, opposition or post-grant proceedings regarding, or for the purpose of protecting title and to the said invention, the United States application for patent, or Letters Patent therefor, and to cooperate and testify in support thereof, for the benefit of Assignee or subsequent assignees of the Patent Rights;

IN WITNESS WHEREOF, this Assignment of Patent Rights is executed at _____
on August 12 2016.
