WHEREAS, Kymab Limited (hereinafter "ASSIGNEE"), a corporation organised and existing under the laws of England, and having a usual place of business at **Bennet Building (B930), Babraham Research Campus, Cambridge, CB22 3AT, United Kingdom** has acquired and hereby does acquire an interest therein in accordance with agreements duly entered into with us;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of and sufficiency of which is hereby acknowledged, we have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, our entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to said invention as described in said applications, including the right of priority and including any and all further applications (including, without limitation, substitution, reissue, divisional, reissue, re-examination and continuation applications, extensions thereof and supplementary protection certificates), together with our entire right, title and interest in and to said applications, extensions and certificates and such Letters Patent as may issue on said invention; said invention, applications, extensions, certificates and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent, extensions and certificates may be granted as fully and entirely as the same would have been held by us had this assignment and sale not been made; we hereby convey all rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for Letters Patent, extensions or certificates. We hereby acknowledge that this assignment, being of our entire right, title and interest in and to said invention, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Letters Patent, extensions and certificates by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all such Letters Patent, extensions and certificates to ASSIGNEE for its own name as assignee of the entire right, title and interest therein; we hereby expressly authorise the filing of any patent application under the Patent Cooperation Treaty, European Patent
