PATENT ASSIGNMENT

This Patent Assignment (this "Assignment") is made and entered into effective as of this 18th day of October 2016 by and between Axon EP Inc., a Texas Corporation ("Assignor"), and Axon Pressure Products Inc., a Texas Corporation ("Assignee").

WHEREAS Assignor has certain rights in and to patent assets identified in Schedule A hereto ("the Patent Assets"); and

WHEREAS Assignee is desirous of acquiring all right, title, and interest in and to the Patent Assets;

NOW THEREFORE, in consideration of the premises and covenants of the parties herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby assign, and agree to assign, to Assignee all of the right, title and interest that it owns, throughout the world, in and to the Patent Assets, and all rights of action accrued under and by virtue thereof, including the right to sue and recover for past infringement.

Assignor agrees that it shall execute and deliver further instruments of conveyance, transfer and assignment as requested by Assignee, its successors, or assigns; reasonably cooperate and assist in providing information for making and completing regulatory and other filings; and take any and all other actions as Assignee, its successors, or assigns may reasonably require (at Assignee's expense) to effectively assign, convey, transfer, protect, enforce, and exploit the Patent Assets and all rights owned by Assignor therein to Assignee, its successors, or assigns.

IN WITNESS WHEREOF, the parties have caused this Assignment to be executed by their duly authorized officers as of the date first written above.

Axon EP, Inc.
