ASSIGNMENT

WHEREAS, University Health Network of 190 Elizabeth Street, R. Fraser Elliot Building – Room 1S-417, Toronto, ON Canada M5G 2C4, hereinafter referred to as “ASSIGNOR,” is the owner of all rights in certain new and useful improvements as described and set forth in the below-identified application for United States Letters Patent:

Title of Invention: COGNITIVE FUNCTION WITHIN A HUMAN BRAIN
Filing Date: December 16, 2005
Serial No.: 11/303,293

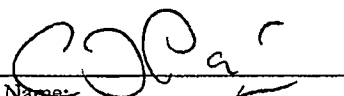

WHEREAS, Functional Neuroscience Inc. of 442 Russell Hill Road, Toronto, ON Canada M5T 2S5, hereinafter referred to as “ASSIGNEE,” wants to acquire an interest in the invention and application and in any Letters Patent and Registrations that may be granted on the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the invention and application and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee’s successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

This Assignment is subject to any and all rights, obligations, and requirements which may apply to the assigned invention and application and in any U.S. Letters Patent and Registrations which may be granted on the same as set forth in the Restated All Parties Agreement executed on October 10, 2006, by and among University Health Network, Dr. Andres Lozano, and Functional Neuroscience, Inc.

Assignor further agrees that Assignor will, without charge to Assignor, but at Assignee’s expense, (a) reasonably cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer and (c) perform such other acts as Assignee lawfully may reasonably request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee’s successors and assigns.

IN TESTIMONY WHEREOF, this Assignment is executed this 3rd day of May, 2011.
