(the "Application") and executed concurrently herewith; or filed on August 10, 2016 as Application No. 15/117,942.

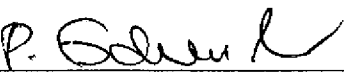

LANDPACK GMBH, a company in Germany, having a place of business at Dorfstraße 27a, Puchheim, 82178, DE (the "Assignee"), desires to jointly acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which we acknowledge, Assignors hereby sell, assign, and transfer to Assignees, their successors, legal representatives and assign, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignees; the right to claim priority rights deriving from the Application; and all right of prior, present and future infringement (collectively, the "Rights"). Assignors warrant that they are joint owners of the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignees deem necessary or desirable to: perfect Assignees' enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignees. This Assignment may be executed in counterparts.
