ASSIGNMENT

We, **Johan W. JONKER** of ~~130 Wilpas Street, San Diego, California 92103~~, a citizen of the Netherlands, **Michael DOWNES** of 2730 Havasupai Avenue, San Diego, California 92117, a citizen of Australia, and **Jaemyoung SUH** of 4238 Corte Favor, San Diego, California 92130, a citizen of South Korea, have invented an invention entitled **METHODS FOR TREATING METABOLIC DISORDERS USING FGF** for which the following patent applications have been filed:

U.S. Provisional Patent Application No. 61/325,253 filed on April 16, 2010;
U.S. Provisional Patent Application No. 61/325,255 filed on April 16, 2010;
U.S. Provisional Patent Application No. 61/325,261 filed on April 16, 2010;
International Patent Application No. PCT/US2011/032848 filed on April 18, 2011; and
U.S. Utility Patent Application No. 13/641,451 filed _____;

which applications are collectively referred to herein as "the patent applications."

The subject inventions were made as a result of my activities at or on behalf of the Salk Institute for Biological Studies or as a result of my utilization of information, facilities or other resources of the Salk Institute for Biological Studies. The conditions under which said inventions were made are such as to entitle the Salk Institute for Biological Studies to the entire right, title, and interest in the inventions and the patent applications in the United States and its territories and dependencies, and all other countries of the world.

In consideration of my obligations and other valuable consideration, I the undersigned hereby sell, assign, and transfer to the **Salk Institute for Biological Studies** (hereinafter, "Salk Institute"), its successors and assigns, the full and exclusive right, title, and interest in the inventions and the patent applications throughout the United States of America and its territories and dependencies, and all other countries of the world. This includes an assignment of all provisional and non-provisional patent applications and any Patents that may be granted on the inventions for corresponding provisional and non-provisional patent applications in the United States of America and all countries throughout the world, and any divisional, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof; and the right to claim priority from the provisional patent applications as provided for by United States law, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, or other applicable law.

We authorize and request the issuance of said Patents to the Salk Institute as assignee of the entire right, title, and interest to be held as fully and entirely as the same would have been held by us had this assignment not been made.

We warrant that there are no outstanding assignments, grants, liens, encumbrances, or agreements either written, oral, or implied that will impair, diminish, limit, or abridge the interest herein conveyed at the time of the execution of the present assignment.

We also agree upon reasonable request to communicate to the Salk Institute, its representatives, successors, assigns, or agents, any facts known to me respecting the inventions, and testify in any legal proceedings, sign all lawful papers, execute all non-provisional, divisional, continuing, and reissue applications, make all rightful oaths, provide all requested documents, and do everything reasonably possible to aid the Salk Institute, its representatives, successors, assigns, or agents to obtain and enforce proper patent protection for the inventions in the United States or any foreign country. These provisions are binding upon my heirs, legal representatives, administrators and assigns.

IN TESTIMONY WHEREOF, the Assignors have signed their names on the dates indicated.
