## ASSIGNMENT

WHEREAS, Enovation Controls, LLC, an Oklahoma limited liability company, whose address is 5311 South 122<sup>nd</sup> East Avenue, Tulsa, Oklahoma 74146, (hereinafter referred to as the "Assignor") with respect to the following United States issued Letters Patent and/or pending application therefor, Serial No. 13/918,882, entitled "Highly Accurate Continuous-Flow Vaporized Fuel Supply for Large Dynamic Power Ranges", filed on June 14, 2013, together with all underlying patent applications that are claimed therein as a basis for priority, (collectively, hereinafter "the Patent/Application(s)") as well as all new and useful improvements described in any of the Patent/Application(s); and

WHEREAS, EControls, LLC, a limited liability company, organized under the laws of the State of Texas, whose primary place of business is 5757 Farinon Drive, San Antonio, Texas 78249, (hereinafter referred to as the "Assignee") is desirous of obtaining the entire right, title and interest in, to and under the said improvements and the said Patent/Application(s);

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged and agreed, we, the said Assignor, have sold, assigned, transferred, and set over, and by these presents, do hereby sell, transfer, and set over, unto the said Assignee, its successors, legal representatives and assigns, our entire right, title and interest in, to and under the said improvements, and the said Patent/Application(s) and any and all divisions, renewals, continuations, and continuations-in-part thereof, and all Letters Patent of the United States which may be granted thereon or claim priority thereto, and all reissues and extensions thereof, and all applications for Letters Patent which have been or may hereafter be filed for said improvements in any country, countries, or regions foreign to, or international offices with jurisdiction beyond, the United States, and all extensions, renewals and reissues thereof, including all rights to recover for any past infringements of any of the foregoing, as well as future infringements; and we hereby authorize and request the Commissioner of Patents of the United States, and any official of any country or countries foreign to the United States, whose duty it is to issue patents on applications as aforesaid, to issue all Letters Patent for said improvements to the said assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument;

AND, we hereby warrant and covenant that we have the full right to convey the entire interest herein assigned, and that we have not executed, and will not execute, any agreement in conflict herewith;

AND, we hereby further warrant and covenant that we will communicate to the said Assignee, its successors, legal representatives and assigns, any facts known to us respecting said improvements, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and generally do everything possible to aid the said Assignee, its successors,

legal representatives and assigns, to obtain and enforce proper patent and similar protection for said improvement in all countries.
