and all patent application(s) (provisional or non-provisional) and letters patent(s) of every country for such inventions, including any and all divisional applications, reissue applications, continuation applications, continuation-in-part applications, renewal applications, national phase applications, design applications, utility models of said applications, and extensions thereof, and all rights of priority resulting from the filing of such patent application(s) in all countries and pursuant to all multilateral treaty organizations including the United States of America, the Patent Cooperation Treaty and European Patent Convention, that may be granted therefor and thereon.

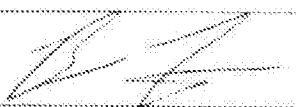

Assignee alone hereinafter has the entire disposal of the inventions and possesses entire ownership to any patents (domestic and/or foreign, including utility models) granted hereinafter. The rights granted hereunder shall include all rights to institute legal actions, obtain remedies and recover and retain damages in respect to said patents.

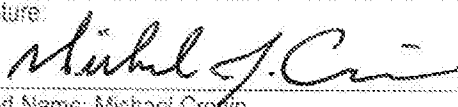

Assignor hereby agrees that said Assignee may apply for and receive patent(s) (domestic and/or foreign, including utility models) for said inventions or improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment. Assignor shall sign all papers and documents, take all lawful oaths, and do all acts necessary or required to be done for the procurement, maintenance, enforcement, and defense of said patent(s) for said inventions and improvements.

Assignor hereby covenants to Assignee, its successors and assigns, that, at the time of effective date of this Assignment, Assignor is the sole and lawful owner of the entire right, title, and interest in and to that which is being conveyed, that the same are unencumbered, and that Assignor has good and full right and lawful authority to convey the same in the manner herein set forth.
