This Agreement and Confirmatory Assignment is entered into by and between Dr. Harry Fisch ("Assignor"), residing at 30 Springdale Road, Scarsdale, NY 10583 and Millennium Sciences Inc. ("Millennium"), a New York corporation, having an address at 944 Park Avenue, New York, NY 10028.

WHEREAS, Assignor is named as the sole inventor on the patents and patent applications identified in attached Schedule A (the "Patent Properties");

WHEREAS, Assignor has previously assigned and transferred to Millennium and its successors and assigns ("Assignee"), the entire right, title and interest Assignor may have had in the Patent Properties and any inventions or improvements disclosed in the Patent Properties;

NOW, THEREFORE, in consideration of past and present good and valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, Assignor hereby confirms that Assignor has assigned and transferred to Assignee the entire right, title and interest Assignor had in the Patent Properties and any inventions or improvements disclosed in the Patent Properties. Moreover, to the extent that any such rights, title or interest were not so assigned and transferred, Assignor hereby assigns and transfers to Assignee the entire right, title and interest that Assignor has in the Patent Properties, any inventions or improvements disclosed in the Patent Properties, any and all other applications and, including, without limitation, divisional, continuation, and substitute, both United States and foreign, which may claim priority to any of the Patent Properties, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of said applications, and in any reissue, re-examination or extension of such patents, and further assigns to Assignee the priority right provided by the International Convention.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue said Letters Patent to said Assignee.

For said considerations Assignor hereby agrees, upon the request and at the expense of Assignee to execute any and all divisional, continuation and substitute applications for said inventions or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon said application and any and all applications and other documents for Letters Patent in foreign countries on said inventions or improvements, that Assignee may deem necessary or expedient, and for the said considerations Assignor authorize said Assignee to apply for patents for said inventions or improvements in its own name in such countries where such procedure is proper and further agree, upon the request of Assignee to cooperate to the best of the ability of Assignor with Assignee in any proceedings or transactions involving such applications or patents, including the preparation and
