ASSIGNMENT

Whereas Agencourt Bioscience Corporation ("Agencourt"), a Delaware corporation having a place of business at 500 Cummings Center, Suite 2450, Beverly, Massachusetts, 01915 and Agencourt Personal Genomics, Inc. ("APG"), a Delaware corporation having a place of business at 500 Cummings Center, Suite 2450, Beverly, Massachusetts, 01915 entered into an Assignment and Assumption Agreement dated as of April 20, 2005 in which Agencourt assigned its entire right, title, and interest in certain patent applications to APG subject to any terms and conditions associated therewith; and

Whereas Agencourt and APG are parties to a Services and Distribution Agreement dated as of April 22, 2005, in which Agencourt agreed and acknowledged that all right, title and interest to inventions, trade secrets, intellectual property and other work product developed or resulting from certain services provided by Agencourt to APG is owned by APG and assigned such interest as it possessed in the same to APG:

Now, therefore, in consideration of the mutual promises contained in the afore-mentioned agreements and for other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, Agencourt hereby sells, transfers, and assigns and/or confirms the sale, transfer of, and assignment to APG, its successors, assigns, and legal representatives, all hereinafter referred to as the Assignee, of Agencourt's entire right, title and interest for the United States and all foreign countries, in and to any and all inventions which are disclosed in the applications for United States Letters Patent and the patent applications filed under the Patent Cooperation Treaty that are identified in Schedule A attached hereto, and in and to said applications and all divisional, continuing, substitute, renewal, reexamination, reissue and all other applications for Letters Patent which have been or shall be filed in the United States or any foreign country (including applications filed under the Patent Cooperation Treaty) on any of said inventions; and in and to all original, reissued, and reexamination patents which shall be issued in the United States and all foreign countries on said inventions including the right to apply for patent rights in each foreign country and all rights to priority (including but not limited to those applications that are identified in Schedule A attached hereto) together, to the extent applicable, with the right to bring actions for past, present, and/or future infringement or unauthorized use thereof;

And further agrees that said Assignee may apply for and receive Letters Patents for said inventions in its own name; and when requested, without charge to but at the expense of said Assignee, agrees to carry out in good faith the intent and purpose of this assignment by executing all divisional, continuing, substitute, renewal, reexamination, reissue, and all other patent applications on any and all said inventions, by executing all rightful oaths, assignments, powers of attorney and other papers, by communicating to said Assignee all facts known to/relating to said inventions and the history thereof, and generally by doing everything possible which said Assignee shall consider desirable for aiding in securing and maintaining proper patent protection for said inventions and for vesting title to said inventions and all applications for patents and all patents on said inventions, in said Assignee;

Hereby requests the Honorable Commissioner of Patents and Trademarks to issue said Letters Patents to said Assignee;

And further covenants with said Assignee that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by him or by Agencourt, and that full right to convey the same as herein expressed is possessed by Agencourt.
