SUPPLEMENTAL ASSIGNMENT

Docket Number HENTE-113H

Whereas, I, Virgil O'Neil, hereafter referred to as Assignor, have invented certain new and useful improvements in PIPE PRESSURE TESTING METHOD AND APPARATUS, for which an application for a United States Patent was filed on October 17, 2014, Application Number 14/517,520.

Whereas, I previously executed an assignment to Securus, Inc. of California, 11545 West Bernardo Court #206 San Diego, CA 92127, and which was a California corporation that subsequently merged into a Securus, Inc. Nevada Corporation with offices currently at 14284 Danielson Street, Poway, California 92064 (hereinafter "Assignee");

Whereas, I reaffirm my initial intent to assign and initial assignment of rights in the improvements and application to Assignee Securus, Inc., a California corporation and do hereby assign any and all remaining interests I may have in the above identified improvements and application to Assignee Securus, Inc., a Nevada Corporation.

Now, therefore, in consideration of the sum of One dollars (\$1.00), the receipt whereof is acknowledged, and other good and valuable consideration, I, the applicant, by these presents do sell, assign and transfer unto said Assignee the full and exclusive right to the said improvements in the United States, and by these presents do hereby sell, assign, transfer and set over, unto Assignee, its successors, legal representatives and assigns, Assignor's entire right, title and interest in, to and under said improvements, and said application and all divisions, renewals, continuations, and continuations-in-part thereof, and all United States Letters patent which may be granted thereon and all reissues and extensions thereof, and all applications for Letters Patent which may hereafter be filed for said improvements in any country or countries foreign to the United States, including the full right to claim for any such application the priority benefits of the International Convention for the Protection of Industrial Property and other priority-conferring treaties, and all Letters Patent which may be granted for said improvements in any country or countries foreign to the United States and all extensions, divisions, continuations, continuations-in-part, renewals and reissues thereof; and Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any official of any country or countries foreign to the United States, whose duty it is to issue patents on applications as aforesaid, to issue all Letters Patent for said improvements to said Assignee, its successors, legal representatives and assigns, in accordance with the terms of this instrument; I hereby authorize and request the Commissioner of Patents and Trademarks to issue said United States Patent to said Assignee, of the entire right, title, and interest in and to the same, for his sole use and behoof; and for the use and behoof of his legal representatives, to the full end of the term for which said Patent may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

AND I HEREBY further assign the right to sue for past infringement and to recover all damages arising from or relating to any such past infringement.

AND I HEREBY further covenant and agree that I will communicate to the said ASSIGNEE, its successors, legal representatives and assigns, any facts known to us respecting said improvements, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths and generally do everything possible to aid the said ASSIGNEE, its successors, legal representatives and assigns, to obtain and enforce proper patent protection for said improvements in all countries at the expense of ASSIGNEE.
