ASSIGNMENT OF DESIGN AND PROVISIONAL UTILITY PATENT APPLICATIONS

I, Salman Sajid, of Glendale, California, (hereinafter, "Assignor") am the sole named inventor of **POCKET WATER BOTTLE**, as described in U.S. Design Patent Application Serial No. 29/581,123 and U.S. Provisional Patent Application Serial No. 62/408,889, both filed 10/17/16 (hereinafter, the "Patent Applications"). Three Sevens LLC (hereinafter, "Assignee") desires to acquire all rights in and to the Patent Application and any related patent (including any reissues, extensions, and those claiming priority to the Patent Application) that may be granted.

For consideration, the receipt of which is acknowledged, Assignor assigns to Assignee 100% of his right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part, substitute applications, or any application claiming priority to the Patent Application) to Assignee for the entire term of any issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest are to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) fully cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications, declarations, oaths, and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.

Executed this January the 12th day of November, 20 16

(Signature)
