(hereinafter referred to as the Assignee)

and any and all improvements in said invention, any United States application or any foreign patent application, including provisional, divisional, renewal, substitute, continuation, reexamination and reissue applications, based in whole or in part on said United States application or foreign application, or in whole or in part on said improvements, and in and to any and all letters patent in the United States or any foreign patent, including extensions thereof, which have been or may be granted on any of the aforesaid applications or on said improvements or any parts thereof.

The Assignors hereby covenant for ourselves and our legal representatives, and agree with said Assignee, its successors and assigns, that we have granted no right or license to make, use, sell or offer to sell said improvements, to anyone except said Assignee, that prior to the assignment and the execution of this deed, our right, title and interest in said improvements had not been otherwise encumbered, and that we have not and will not execute any instrument in conflict therewith.

The Assignment covers all countries of the world and the Assignee is entitled to file applications in any country at its discretion and to abstain from seeking patent protection in any and all countries, if it so desires.

The Assignment also includes our right to claim priority under the Paris Convention or any other multilateral or bilateral treaties.

The Assignors hereby agree to execute any additional assignments and other documents required in connection with the prosecution of the patent applications as well as to perform any additional acts
