PATENT ASSIGNMENT

This PATENT ASSIGNMENT (this "Assignment"), dated as of December 1, 2016, is made between Weyerhaeuser NR Company ("Assignor"), a Washington corporation, located at 33633 Weyerhaeuser Way South, Federal Way, Washington, 98003, United States of America, in favor of International Paper Company ("Assignee"), a New York corporation, located at 6400 Poplar Avenue, Memphis, Tennessee, 38197, United States of America, the purchaser of Assignor's cellulose fibers business (the "Business") pursuant to a Purchase Agreement between Assignee and Assignor, dated as of May 1, 2016 (as amended and restated on August 12, 2016, and as further amended, modified or supplemented from time to time in accordance with its terms, the "Purchase Agreement"). Unless otherwise indicated, capitalized terms used herein without definitions shall have the meanings specified in the Purchase Agreement.

WITNESSETH:

WHEREAS, under the terms of the Purchase Agreement, Assignor has agreed to sell, transfer, assign and deliver to Assignee, among other assets, all rights, title and interest in the patents (including all provisionals, reissues, divisions, continuations, continuations-in-part, reexaminations and extensions thereof) and patent applications, together with any patent disclosures and inventions (whether or not reduced to practice), included as Transferred Intellectual Property (excluding the Transferred Intellectual Property related to northern bleached softwood kraft pulp), including as set forth in Schedule A (collectively, the "Assigned Patents");

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee agree as follows:

SECTION 1. Assignment. Assignor hereby sells, transfers, assigns and delivers to Assignee, and Assignee hereby accepts the sale, transfer, assignment and delivery of, all of Assignor's right, title and interest in, to and under the Assigned Patents together with all the rights of enforcement and the rights, interests, claims and demands recoverable in law or equity, that Assignor has or may have in profits and damages for past, present and future infringements or other conflicts relating to the Assigned Patents, including, without limitation, the right to compromise, sue for and collect such profits and damages; all rights of priority resulting from the filing of the Assigned Patents, and all other rights, including common law rights, relating to the Assigned Patents, to the extent such rights exist or may exist in the future, each to be held and enjoyed by Assignee for its own use and benefit and for the use and benefit of its successors, assigns and legal representatives as said rights would have been held and enjoyed by such Assignor had this assignment and sale not been made; provided, however, that this Assignment shall not constitute an assignment to the extent that, if it were to sell, transfer, assign or deliver an interest in and to the Assigned Patents, it would impair the subsequent lawful and effective execution and recordation of a necessary country-specific form of assignment.

SECTION 2. Recordation. Assignor hereby authorizes the Commissioner for Patents in the United States Patent and Trademark Office and other empowered officials of the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this Assignment upon request by Assignee.

SECTION 3. No Modification of the Purchase Agreement. This Assignment shall not enlarge, restrict or otherwise modify the terms of the Purchase Agreement or constitute a waiver or relapse of any of the terms of the Purchase Agreement, including, without limitation, the representations, warranties, covenants, agreements and indemnities set forth in the Purchase Agreement. In the event of any conflict between the provisions of this Assignment, on the one hand, and the provisions of the Purchase Agreement, on the other hand, the provisions of the Purchase Agreement shall control.

SECTION 4. Severability. The invalidity, illegality or unenforceability of any portion of this Assignment shall not affect the validity, force or effect of the remaining portions of this Assignment. If it is ever held that any restriction hereunder is too broad to permit enforcement of such restriction to its fullest extent, each party agrees that a court of competent jurisdiction may enforce such restriction to the maximum extent permitted by Law, and each party hereby consents and agrees that such scope may be judicially modified accordingly in any proceeding brought to enforce such restriction.

SECTION 5. Counterparts. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original and all of which shall be considered one and the same agreement, and shall become effective when one or more counterparts have been signed by each of the parties hereto and delivered to the other parties.

SECTION 6. Successors and Assigns. Neither this Assignment nor any of the rights, interests or obligations of the parties hereunder may be assigned by any of the parties (including by operation of Law or otherwise) without the prior written consent of the other parties. Any attempted assignment in violation of this Section 6 shall be void. Subject to the immediately preceding sentences, this Assignment shall be binding upon, inure to the benefit of, and be enforceable by, the parties hereto and their respective successors and permitted assigns.

SECTION 7. Governing Law; Enforcement. This Assignment and disputes relating hereto (whether for breach of contract, tortious conduct or otherwise) shall be governed by, and construed in accordance with, the Laws of the United States, in respect to patent issues and in all other respects, including as to validity (except for patent issues), interpretation and effect by the Laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws thereof. Any disputes shall be resolved in accordance with Section 11.10 of the Purchase Agreement. **IN CONNECTION WITH ANY DISPUTE HEREUNDER, EACH PARTY HERETO WAIVES ITS RIGHT TO TRIAL OF ANY ISSUE BY JURY.**

SECTION 8. Amendments: Waiver. This Assignment may be amended, modified, superseded or canceled only by an instrument in writing signed by the Assignor and Assignee. Any of the provisions hereof may be waived only by an instrument in writing signed by or on behalf of the party waiving compliance. The failure or delay by any party to this Assignment to assert any of its rights under this Assignment or otherwise shall not constitute a waiver of such rights nor shall any single or partial exercise by any party to this Assignment of any of its rights under this Assignment preclude any other or further exercise of such rights or any other rights under this Assignment.
