ASSIGNMENT OF RIGHTS

Assignor	Assignee
Michael DiCanzio 1426 Cooper Circle West Chester, PA 19380 United States	Turn 5, Inc. 7 Lee Blvd Malvern, PA 19355 United States

Assignor is the inventor of a

Automobile Bumper

described in the U.S. Patent Application No. 29/587,268 filed December 12, 2016, (the "Patent Application"). (If blank, Assignors permit the application number and filing date to be inserted by Assignee's representative after the signature date(s) below.)

Assignee desires to acquire all rights in and to the Patent Application and any patent that may be granted from the Patent Application.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignor hereby assigns to Assignee 100% of their right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of, or related to, the Patent Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest in the Patent Application is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Patent Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c)

perform such other acts as Assignee lawfully may request to obtain or maintain any patent for the invention described in the Patent Application in any and all countries.
