Assignment of Application

Whereas Daniel Diotte, hereinafter referred to as "assignor," whose mailing address is 1780 Liatris Drive, Pickering, ON Canada L1X 0B2, hereinafter referred to as Applicant, have invented certain new and useful improvements in night light wall socket covers for which a U.S. utility application was filed on April 5, 2013, Application Number 13/821,366, claiming priority on U.S. Provisional Application Number 61/380,561 filed on September 7, 2010. Whereas, VenMill Industries, hereinafter referred to as "assignee," whose mailing address is 36 Town Forest Road, Oxford, MA 01540 is desirous of acquiring the entire right, title and interest in the same:

Now, therefore, in consideration of the sum of two-thousand five hundred dollars (\$2,500.00), the receipt of which is acknowledged, Daniel Diotte, by these presents do sell, assign and transfer unto said assignee the full and exclusive right to the said invention in the United States and the entire right, title and interest in and to any and all Patents which may be granted therefore in the United States. I hereby authorize and request the Director of the U.S. Patent and Trademark Office to issue said United States Patent to said assignee, of the entire right, title, and interest in and to the same, the full end of the term for which said Patent may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

For the sake of clarity by the parties, this Assignment Document represents the entire consideration and payment terms for the transfer of the night light wall socket cover technology from the assignor to the assignee. The night light wall socket cover technology is not a VenMill Product and Consumable for the purposes of revenue calculations and payments due to assignor as defined in the Settlement Agreement of May 13, 2014, between the assignor and assignee. The assignor shall not receive any payments beyond the payments stipulated in this assignment document.
