NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees with Agent as follows:

1. Capitalized terms used herein (including those used in the Recitals hereto), unless otherwise defined, shall have the meanings ascribed to them in the Loan Agreement.

2. To secure the prompt payment and performance of all of the Obligations, each Grantor hereby grants, assigns and pledges to Agent, for the benefit of the Secured Parties, a continuing security interest in and Lien upon all of the following property of such Grantor, whether now existing or hereafter created or acquired (collectively, the "Patent Collateral"):

(a) The entire right, title and interest in and to the patent applications and patents owned by such Grantor and listed in Exhibit A attached hereto (as the same may be amended from time to time), and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof (all of the foregoing being herein collectively referred to as the "Patents"); and

(b) All proceeds of the foregoing (such as, by way of example, license royalties and proceeds of infringement suits).

3. Each Grantor covenants with and warrants to Agent that:

(a) Each of its Patents are subsisting and have not been adjudged invalid or unenforceable, in whole or in part;

(b) Such Grantor is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of its Patents, free and clear of any Liens other than Permitted Liens;

(c) Such Grantor has the unqualified right to enter into this Agreement and perform its terms; and

(d) Except for expired Patents and Patents abandoned by such Grantor in the Ordinary Course of Business (provided such abandonment could not reasonably be expected to have a Material Adverse Effect), such Grantor will continue to make all appropriate filings with the United States Patent and Trademark Office and any applicable foreign filing offices to maintain the Patents in existence, including, without limitation, filing all necessary documents with the United States Patent and Trademark Office and any applicable foreign filing offices for each of its Patents to maintain it without loss of protection therefor, except with respect to Patents that such Grantor has determined are no longer material to the conduct of its business.

4. If, before Full Payment of all of the Obligations, any Grantor shall obtain rights to any new patentable inventions, or become entitled to the benefit of any patent application or patent for any reissue, division, continuation, renewal, extension or continuation-in-part of any Patent or any improvement on any Patent, the provisions of paragraph 2 shall automatically apply thereto and such Grantor shall give to Agent prompt notice thereof in writing.

5. Each Grantor irrevocably authorizes and empowers Agent to modify this Agreement by amending Exhibit A to include any future patents and patent applications (it being understood and agreed that Agent will endeavor to use commercially reasonable efforts to give such Grantor three Business Days' prior written notice before filing any amendment with the United States Patent and Trademark Office or applicable foreign filing office).

6. Each Grantor hereby grants to Agent (and its employees and agents), the visitation, audit, and inspection rights with respect to such Grantor and the Patent Collateral as set forth in the Loan Agreement.

7. At any time that an Event of Default exists, Agent shall have, in addition to all other rights and remedies given it by this Agreement and the other Loan Documents, all rights and remedies of a secured party under the UCC or the PPSA and all other rights and remedies under Applicable Law. Without limiting the generality of the foregoing, at any time an Event of Default exists, Agent may immediately, for the benefit of Secured Parties, without demand of performance and without other notice (except as described in the next sentence, if required by Applicable Law) or demand whatsoever to any Grantor, each of which each Grantor hereby expressly waives, and without advertisement (except as otherwise provided by Applicable Law), collect directly any payments due any Grantor in respect of the Patent Collateral, or sell at public or private sale or otherwise realize upon the whole or from time to time any of the Patent Collateral, or any interest which any Grantor may have therein. Each Grantor hereby agrees that ten (10) days' notice to such Grantor of any public or private sale or other disposition of any of the Patent Collateral shall be reasonable notice; provided, however, that no notice shall be required

hereunder if not otherwise required by Applicable Law. At any such sale or disposition, Agent may, to the extent permitted by Applicable Law, purchase the whole or any part of the Patent Collateral sold, free from any right of redemption on the part of any Grantor, which right each Grantor hereby waives and releases. After deducting from the proceeds of such sale or other disposition of the Patent Collateral all reasonable costs and expenses incurred by Agent in enforcing its rights hereunder (including, without limitation, all reasonable attorneys' fees), Agent shall apply the remainder of such proceeds to the payment of the Obligations, in such order or manner as may be authorized or required by the Loan Agreement. Any remainder of the proceeds after Full Payment of all of the Obligations shall be paid over to the applicable Grantor. If any deficiency shall arise, each Grantor and each guarantor of the Obligations shall remain jointly and severally liable therefor.

8. Each Grantor hereby makes, constitutes and appoints Agent, and any officer or agent of Agent as Agent may select, as such Grantor's true and lawful attorney-in-fact, with full power to do any or all of the following if an Event of Default with respect to such Grantor shall exist: to endorse such Grantor's name on all applications, documents, papers and instruments necessary for Agent to continue the maintenance of or to use such Grantor's Patents, or to grant or issue any exclusive (subject to any then-existing license(s)) or nonexclusive (subject to any then-existing license(s)) license under such Grantor's Patents to any other Person, or to assign, pledge, convey or otherwise transfer title in or dispose of any Patent Collateral to any other Person. Each Grantor hereby ratifies all that such attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney, being coupled with an interest, shall be irrevocable until Full Payment of all of the Obligations.

9. Section 3.4 of the Loan Agreement is incorporated herein *mutadis mutandis*, as if a part hereof.

10. Each Grantor shall promptly after obtaining knowledge thereof notify the Agent in writing of the assertion of any Intellectual Property Claim against such Grantor that could reasonably be expected to have a Material Adverse Effect. Each Grantor shall have the duty, through counsel reasonably acceptable to Agent, to prosecute diligently any patent application for a Patent pending owned by it as of the date of this Agreement or thereafter until Full Payment of the Obligations to make application on unpatented but patentable inventions (subject to such Grantor's reasonable discretion in the ordinary course of business, or, during the existence of an Event of Default, promptly upon Agent's request), to file and prosecute opposition and cancellation proceedings, to file and prosecute lawsuits to protect each of its Patents and to do any and all acts as such Grantor reasonably deems necessary or desirable to preserve and maintain the Patent Collateral owned by it, unless in any such case such Grantor has determined that such Patent is no longer material to the conduct of its business. Any expenses incurred in connection with such an application or proceedings shall be borne by such Grantor. No Grantor shall abandon any pending patent application or Patent, without the prior written consent of Agent, unless such Grantor has determined that such patent application or Patent is no longer material to the conduct of its business.

11. Notwithstanding anything to the contrary contained in paragraph 10 hereof, Agent shall have the right, at any time that an Event of Default exists, but shall in no way be obligated, to bring suit in its own name to enforce the Patents and any license hereunder, or to defend any suit or counterclaim in its own name to protect any Patents or license hereunder, in either of which events each Grantor shall at the request of Agent do any and all lawful acts (including bringing suit) and execute any and all proper documents required by Agent in aid of such enforcement or defense and each Grantor shall promptly, upon demand, reimburse and indemnify Agent for all reasonable costs and expenses incurred by Agent in the exercise of its rights under this paragraph 11.

12. If any Grantor fails to comply with any of its obligations hereunder and at the time of such failure or as a result thereof an Event of Default exists, then to the extent permitted by Applicable

Law, Agent may discharge such obligations in such Grantor's name or in Agent's name, in Agent's sole discretion, but at such Grantor's expense, and such Grantor agrees to reimburse Agent in full for all reasonable expenses, including, without limitation, reasonable attorneys' fees, incurred by Agent in prosecuting, defending or maintaining the Patents or Agent's interest therein pursuant to this Agreement.

13. No course of dealing between any Grantor and Agent, nor any failure to exercise, nor any delay in exercising, on the part of Agent, any right, power or privilege hereunder or under any of the other Loan Documents shall operate as a waiver thereof; nor shall any single or partial exercise of any right, power or privilege hereunder or thereunder preclude any other or future exercise thereof or the exercise of any other right, power or privilege.

14. All of Agent's rights and remedies with respect to the Patent Collateral, whether established by this Agreement or any of the other Loan Documents, or by any other agreements or by Applicable Law, shall be cumulative and may be exercised singularly or concurrently.

15. The provisions of this Agreement are severable, and if any clause or provision shall be held invalid and unenforceable, in whole or in part, in any jurisdiction, the same shall be deemed severed herefrom and shall not in any manner affect such clause or provisions in any other jurisdiction, or any other clause or provision of this Agreement in any jurisdiction.

16. This Agreement, together with the other Loan Documents, constitutes and expresses the entire understanding of the parties hereto with respect to the subject matter hereof, and supersedes all prior agreements and understandings, inducements or conditions, whether express or implied, oral or written. This Agreement is subject to modification only by writing signed by the parties, except as provided in paragraph 5 hereof.

17. The benefits and burdens of this Agreement shall inure to the benefit of and be binding upon the successors and assigns of each Secured Party and upon the successors and permitted assigns of each Grantor. No Grantor shall assign its rights or delegate its rights or assign its duties hereunder without the prior written consent of Agent.

18. Each Grantor hereby waives notice of Agent's acceptance hereof.

19. This Agreement may be executed in any number of counterparts and by different parties to this Agreement on separate counterparts, each of which, when so executed, shall be deemed an original, but all such counterparts shall constitute one and the same agreement. Any manually executed signature page to this Agreement delivered by a party by facsimile or other electronic transmission shall be deemed to be an original signature hereto.

20. This Agreement shall be governed by and construed in accordance with the internal laws of the State of New York.

21. To the fullest extent permitted by Applicable Law, each Grantor and Agent each waives the right to trial by jury in any action, suit, proceeding or counterclaim of any kind arising out of or related to this Agreement or the Patent Collateral.
