ASSIGNMENT

Whereas, the individual identified below as Assignor has invented certain subject matter ("Invention") disclosed in an application for United States Letters Patent entitled:

Device for Adjustably Suspending a Boat Fender from a Rod Holder
US Patent No.7775176

("Application");

Whereas, Assignor has agreed to convey all rights, title and interests in and to the same to the person or entity identified below as Assignee ("Assignee"), and Assignor desires to formalize the conveyance of all rights, title and interests in and to the same to Assignee;

Now, for valuable consideration, the receipt of which is hereby acknowledged, Assignee and Assignor hereby agree as follows:

Assignor hereby conveys, assigns, sells and transfers to Assignee all rights, title and interests in and to the Invention disclosed in the Application and any improvements, continuation, division, renewal, or substitute thereof, any Letters Patent of the United States based thereon, the right to apply in Assignee's own name for patents or inventor's certificates and related rights for the Invention in any and all countries, all rights to claim priority based thereon, all patents granted thereon and all reissues, extensions and renewals thereof.

Assignor hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment.
