10 INDUSTRIAL AND INTELLECTUAL PROPERTY

- 10.1 The Parties agree that all ideas, studies, drawings, moulds, technical knowledge/know-how, inventions, software creations and, more generally, any industrial or intellectual property right developed in the course of the Tasks shall be the exclusive property of VALEO and, consequently, will be rightfully devolved by the Provider to VALEO.
- 10.2 The Inventor and the Provider shall renounce all rights to any addition, improvement or adaptation of said ideas, studies, drawings, moulds, technical knowledge/know-how, inventions and software creations that may be developed outside the context of the Task but within the extension thereof.
- 10.3 As a result, VALEO shall have the sole right to file any patent applications in relation to said inventions and to exploit said inventions and patents without the Provider or the inventor being able to make any claim to VALEO for compensation of any kind. Likewise, VALEO alone shall be invested with all the property rights to the software in accordance with Article L 113-9 of the French Intellectual Property Code (law of 10 May 1994) and VALEO shall therefore have the sole right to exercise all rights to reproduction, translation, arrangement, modification and distribution of said software.
- 10.4 The Provider undertakes to sign or oblige its staff to sign all the documents necessary for the filing of related patents, designs and models.
