## PATENT SECURITY AGREEMENT

This PATENT SECURITY AGREEMENT (this "Agreement"), is made as of May 4, 2010 by BLASTER FOOD TECHNOLOGIES LP, an Arizona limited partnership ("Debtor"), in favor of AEGIS TEXAS VENTURE FUND II, LP (together with any successor(s) thereto in such capacity, the "Secured Party").

### BACKGROUND.

Pursuant to the Loan and Security Agreement dated as of the date hereof (such agreement, together with all amendments and restatements, the "Loan Agreement"), between Batter Blaster, LLC ("Borrower") and Secured Party, Secured Party has extended commitments to make Loans to Borrower;

In connection with the Loan Agreement and this Agreement, Debtor has executed and delivered the Security Agreement dated as of the date hereof (such agreement, together with all amendments and restatements, the "Security Agreement");

As a condition precedent to the making of the Loans under the Loan Agreement, Debtor is required to execute and deliver this Agreement and to grant to Secured Party a continuing security interest in all of the Patent Collateral (as defined below) to secure all Obligations;

It is in the best interests of Debtor to execute this Agreement inasmuch as Debtor will derive substantial direct and indirect benefits from the Loans made to Borrower pursuant to the Loan Agreement; and

Debtor has duly authorized the execution, delivery and performance of this Agreement.

### AGREEMENT

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and in order to induce Secured Party to make Loans pursuant to the Loan Agreement, Debtor agrees, for the benefit of Secured Party as follows:

1. Definitions. Unless otherwise defined herein or the context otherwise requires, terms used in this Agreement, including its preamble and recitals, have the meanings provided (or incorporated by reference) in the Security Agreement.

"Patent License" means any agreement, now or hereafter in effect, granting to any third party any right to make, use or sell any invention on which a Patent, now or hereafter owned by Debtor or which Debtor otherwise has the right to license, is in existence, or granting to Debtor any right to make, use or sell any invention on which a Patent, now or hereafter owned by any third party, is in existence, and all rights of Debtor under any such agreement.

"Patents" means (a) all letters patent of any governmental authority, all registrations and recordings thereof, and all applications for letters patent of any governmental authority, and

(b) all reissues, continuations, divisions, continuations-in-part, renewals, or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use and/or sell the inventions disclosed or claimed therein.

2. Grant of Security Interest. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, to secure all of the Obligations, Debtor does hereby mortgage, pledge and hypothecate to Secured Party, and grant to Secured Party a security interest in, for its benefit and the benefit of each Secured Creditor, all of the following property (the "Patent Collateral"), whether now owned or hereafter acquired by it:

(a) all Patents, including all Patents referred to in Item A of Attachment 1 attached hereto;

(b) all applications for Patents, including all Patent applications referred to in Item B of Attachment 1 attached hereto; and

(c) all Patent Licenses, including all Patent Licenses referred to in Item A of Attachment 1 attached hereto; and

(d) all proceeds and products of all of the foregoing, including, without limitation, insurance payable by reason of loss or damage to the foregoing.

3. Security Agreement. This Agreement has been executed and delivered by Debtor for the purpose of registering the security interest of Secured Party in the Patent Collateral with the United States Patent and Trademark Office and corresponding offices in the United States and any state thereof. The security interest granted hereby has been granted as a supplement to, and not in limitation of, the security interest granted to Secured Party for its benefit under the Security Agreement. The Security Agreement (and all rights and remedies of Secured Party) shall remain in full force and effect in accordance with its terms.

4. Acknowledgment. Debtor does hereby further acknowledge and affirm that the rights and remedies of Secured Party with respect to the security interest in the Patent Collateral granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which (including the remedies provided for therein) are incorporated by reference herein as if fully set forth herein.

5. Loan Document, etc. This Agreement is a Loan Document executed pursuant to the Loan Agreement and shall (unless otherwise expressly indicated herein) be construed, administered and applied in accordance with the terms and provisions of the Loan Agreement.

6. Counterparts. This Agreement may be executed by the parties hereto in several counterparts, each of which shall be deemed to be an original and all of which shall constitute together but one and the same agreement.
