ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

This Assignment of Patents and Patent Applications is made as of the 1st day of November, 2016 (this "Assignment") by LumenR, LLC, a Delaware limited liability company ("Assignor"), in favor of Boston Scientific Scimed, Inc., a Minnesota corporation ("Assignee"). Capitalized terms used and not otherwise defined herein shall have the meanings ascribed to them in that certain Asset Purchase Agreement dated as of November 1, 2016 (the "Purchase Agreement"), by and between Assignor and Assignee.

WHEREAS, Assignor is the owner of certain patents and patent applications in the United States Patent and Trademark Office and other foreign offices identified in Exhibit 1 attached hereto (the "Assigned Patent Rights");

WHEREAS, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor desires to sell, transfer, assign and set over unto Assignee all right, title and interest of Assignor in and to the Assigned Patent Rights, pursuant to the terms of the Purchase Agreement;

WHEREAS, pursuant to the terms of the Purchase Agreement, Assignor has agreed to execute and deliver all documents as the Buyer may reasonably request of Assignor to effect the transactions contemplated by the Purchase Agreement, including all instruments of assignment and transfer with respect to the Assigned Patent Rights; and

NOW, THEREFORE, for good and valuable consideration, including the representations, warranties, covenants and agreements contained in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer and set over unto Assignee, its successors and assigns, the entire and exclusive right, title and interest in and to the Assigned Patent Rights, including all inventions in the United States and throughout the world described therein, and the applications and patents issuing from applications listed therein, and any applications and patents claiming priority to any of those listed therein, and any applications and patents from which those listed therein may claim priority to, and any other continuations-in-part, divisionals, reissues, extensions and foreign counterparts of the Assigned Patent Rights, together with all claims for damages by reason of past, present or future infringement of any Assigned Patent Rights, with the right to sue for and collect the same, and any and all other corresponding rights that have been, or hereafter may be, secured throughout the world with respect to the Assigned Patent Rights. Assignor further agrees to execute and has executed all documents, instruments and papers and to perform all acts, without any further consideration, as reasonably requested by Assignee, its successors and assigns, to perfect in Assignee, its successors and assigns, the foregoing rights, title and interests, including the execution of any related domestic or foreign application documents.

Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office (and its foreign counterparts in any applicable jurisdiction) to issue the Patents resulting from the applications in the Assigned Patent Rights to Assignee, its successors and assigns.

This Assignment is subject in all respects to the terms and conditions of the Purchase Agreement, which are incorporated herein by reference. This Assignment is given to further evidence (and give immediate effect to) the transfers and assignments contemplated by the Purchase Agreement upon the terms and conditions specified therein. Nothing contained in this Assignment shall in any way supersede, modify, replace, amend, change, rescind, waive, exceed, expand,

reduce, enlarge or in any way affect the provisions, including warranties, covenants, agreements, conditions, representations or, in general, any of the rights and remedies, and any of the obligations, of any party to the Purchase Agreement set forth therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement will govern.

This Assignment shall be governed by, and construed in accordance with the laws of the State of Delaware, United States, without regard to conflicts of law principles.

This Assignment may be executed in multiple counterparts, each of which will be deemed an original, but all such counterparts taken together will constitute one and the same Assignment. Copies of executed signature pages delivered by facsimile or other electronic means (*i.e.*, .pdf or .tif) shall be deemed originals.
