ASSIGNMENT

WHEREAS Konstantin Bieneman, Cedric Morin, Wei Kwan Toh, and Yee Kang Tam ("the Inventors") have conceived certain inventions or improvements disclosed in European Patent Application No. 16306011.4 filed August 4, 2016, and United States Patent Application No. 15/271,546 filed September 21, 2016; at least one of the Inventors was an employee of Cameron (Singapore) Pte. Ltd. ("the Employer") at the time of conception of these inventions or improvements and, under operation of law, the Employer may have certain rights in the inventions; and the Inventors and the Employer intend for all rights in these inventions or improvements and in any patent applications based on these inventions or improvements to be held by Cameron International Corporation ("the Assignee"), having a place of business at 1333 West Loop South, Suite 1700, Houston, Texas 77027; the Inventors and the Employer declare the following:

For good and valuable consideration, the receipt and sufficiency of which are acknowledged, we assign to the Assignee our entire interest in: (1) any inventions or improvements disclosed in European Patent Application No. 16306011.4 filed August 4, 2016, and United States Patent Application No. 15/271,546 filed September 21, 2016; (2) these European and United States Patent Applications and all other patent applications that have been or will be filed in Europe, the United States, or in other countries based on any such inventions or improvements; and (3) any patents issuing from these European and United States Patent Applications or such other patent applications.

We agree that the Assignee has the right to apply for patents and file additional patent applications under the provisions of any law, convention, or treaty and to claim priority based on the European or United States Patent Applications above or any inventions or improvements disclosed therein.

For any patent granted on a patent application assigned herein, we authorize and request that the issuing authority grant and issue such patent to the Assignee.

We covenant that we have not previously entered into an agreement with another not party to this assignment that would affect the rights and property assigned herein, that we will not enter into any agreement with another not party to this assignment that would purport to affect the rights and property assigned herein, and that we have the right to enter into the present agreement with the Assignee.

To carry out in good faith the intent of this agreement, upon request and at the expense of the Assignee, and without further consideration to us, we agree to: (1) execute any papers deemed by the Assignee to be necessary to secure, maintain, or enforce patent protection for the inventions and improvements assigned herein; (2) communicate to the Assignee all facts known to me relating to such inventions and improvements; and (3) cooperate with the Assignee in any dispute involving any patent application or patent assigned herein.

The Assignee agrees to receive the interests and rights assigned above. Further, the Inventors, the Employer, and the Assignee agree that the duties and benefits set forth in this agreement extend to the respective successors of the Inventors, the Employer, and the Assignee.
