ASSIGNMENT

In consideration of One Euro (€1.00) and other good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, I, Pieter Harpe, a citizen of Netherlands, with a residence address of Christiaanstraat 130 Eindhoven, The Netherlands (hereafter "Assignor") hereby assign to **Technische Universiteit Eindhoven**, Den Dolech 2, Eindhoven, The Netherlands (hereafter Assignee) its successors and assigns, my entire right, title, and interest in the invention disclosed in **US Patent Application No. 15/247,172**, which was filed with the US Patent and Trademark Office on August 25, 2016, is entitled "A Bio-Impedance Spectroscopy System and Method for Bio-Impedance Measurement," names Pieter Harpe and Jiawei Xu as inventors, and is identified as Case No. 16-1008 in the offices of MCDONNELL BOEHNEN HULBERT & BERGHOFF LLP (hereafter the Patent Application), and in the Patent Application and any and all other applications, both United States and foreign, which I may file, either solely or jointly with others, on such invention, and in any and all Letters Patent of the United States and foreign countries, which may be obtained on any of such applications, and in any reissue or extension of such patents, and further assign to the Assignee the priority right provided by the International Convention.

I hereby authorize and request the US Commissioner of Patents and Trademarks to issue the Letters Patent to the Assignee.

I warrant that Jiawei Xu and I are the owners of the entire right, title, and interest in the invention and that I have the right to make this Assignment, and further warrant that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

For the considerations, I hereby agree, upon the request and at the expense of the Assignee, its successors and assigns, to execute any and all divisional, continuation, and substitute applications for the invention, and any necessary oath, affidavit, or declaration relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon the Patent Application and any and all applications and other documents for Letters Patent in foreign countries on the invention, that the Assignee, its successors or assigns may deem necessary or expedient, and for the considerations I authorize the Assignee to apply for patents for the invention in its own name in such countries where such procedure is proper and further agree, upon the request of the Assignee, its successors and assigns, to cooperate to the best of my ability with the Assignee, its successors and assigns, in any proceedings or transactions involving such applications or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain and enforce such Letters Patent, both United States and foreign, and vest all rights therein hereby conveyed in the Assignee, its successors and assigns, whereby such Letters Patent will be held and enjoyed by the Assignee, its successors and assigns, to the full end of the term for which such Letters Patent will be granted. This Assignment is governed by the substantive laws of the United States of America.
