B. Each of the Inventors has sold, assigned, and transferred and does hereby sell, assign, and transfer to NEXTBIT SYSTEMS INC., a corporation of Delaware, having a place of business at 290 King Street, Unit #9, San Francisco, CA 94107 ("Assignee"), for itself and its successors, transferees, and assignees, the entire worldwide right, title, and interest in (a) the Applications; (b) all applications claiming priority from the Applications; (c) all provisional, utility, divisional, continuation, substitute, renewal, reissue, and other applications related thereto which have been or may be filed in the United States or elsewhere in the world; (d) all patents (including reissues and re-examinations) which may be granted on the applications set forth in (a), (b), and (c) above; (e) all right of priority in the Applications and in any underlying provisional or foreign application; and (f) all inventions and improvements that are disclosed in the Applications.

C. Each of the Inventors has previously signed an Assignment for the Applications (the "Prior Assignments"), and those Prior Assignments have been recorded with the US Patent and Trademark Office at the reel and frame number indicated above.

D. However, those Prior Assignments mistakenly identify the name of the Assignee as "NEXTBIT INC." when, in fact, the name of the Assignee had changed from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC." before the Prior Assignments were signed.

E. Now, therefore, each Inventor hereby corrects the name of the Assignee from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC." in each of the Prior Assignments previously signed by the Inventor.

F. Additionally, some of the Prior Assignments include a handwritten correction that corrects the name of the Assignee from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC."

G. Now, therefore, each Inventor hereby confirms the handwritten correction is correct and that the correct name of the Assignee is "NEXTBIT SYSTEMS INC." in each of the Prior Assignments previously signed by the Inventor that include the handwritten correction.

The Inventors agree that Assignee may record this Corrective Addendum to Assignment and may generally do all lawful acts that Assignee shall consider desirable to make the correction to properly identify the Assignee. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same Assignment.

B. Each of the Inventors has sold, assigned, and transferred and does hereby sell, assign, and transfer to NEXTBIT SYSTEMS INC., a corporation of Delaware, having a place of business at 290 King Street, Unit #9, San Francisco, CA 94107 ("Assignee"), for itself and its successors, transferees, and assignees, the entire worldwide right, title, and interest in (a) the Applications; (b) all applications claiming priority from the Applications; (c) all provisional, utility, divisional, continuation, substitute, renewal, reissue, and other applications related thereto which have been or may be filed in the United States or elsewhere in the world; (d) all patents (including reissues and re-examinations) which may be granted on the applications set forth in (a), (b), and (c) above; (e) all right of priority in the Applications and in any underlying provisional or foreign application; and (f) all inventions and improvements that are disclosed in the Applications.

C. Each of the Inventors has previously signed an Assignment for the Applications (the "Prior Assignments"), and those Prior Assignments have been recorded with the US Patent and Trademark Office at the reel and frame number indicated above.

D. However, those Prior Assignments mistakenly identify the name of the Assignee as "NEXTBIT INC." when, in fact, the name of the Assignee had changed from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC." before the Prior Assignments were signed.

E. Now, therefore, each Inventor hereby corrects the name of the Assignee from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC." in each of the Prior Assignments previously signed by the Inventor.

F. Additionally, some of the Prior Assignments include a handwritten correction that corrects the name of the Assignee from "NEXTBIT INC." to "NEXTBIT SYSTEMS INC."

G. Now, therefore, each Inventor hereby confirms the handwritten correction is correct and that the correct name of the Assignee is "NEXTBIT SYSTEMS INC." in each of the Prior Assignments previously signed by the Inventor that include the handwritten correction.

The Inventors agree that Assignee may record this Corrective Addendum to Assignment and may generally do all lawful acts that Assignee shall consider desirable to make the correction to properly identify the Assignee. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original and all of which may be taken together as one and the same Assignment.
