## INVENTION ASSIGNMENT

WHEREAS, Redglaze Group, LLC (hereinafter referred to as Assignor) is the owner of the inventions described and/or claimed in the patents/patent applications identified in the attached SCHEDULE A (the "Inventions");

WHEREAS, Redglaze Group, LLC desires to assign the Inventions to HGI Resources LLC, a limited liability company duly organized under the laws of the state of Nebraska, and having its principal place of business at 742 North 109<sup>th</sup> Court, Omaha, Nebraska, 68154 (hereinafter referred to as "Assignee");

WHEREAS, Assignee desires to acquire the entire right, title and interest in and to the Inventions and to secure, as Assignee deems appropriate, patent and/or other protection therefor.

NOW, THEREFORE, for good and sufficient consideration, the receipt of which is hereby acknowledged, Assignor makes assignments, agreements, representations, warranties, and grants as follows:

**Assignment of Inventions.** Assignors hereby sell, assign, transfer, convey, and set over unto Assignee, its successors, legal representatives, and assigns:

The entire right, title, and interest of Assignors in and to the Inventions; any and all letters patent that may be issued with respect thereto in the United States and elsewhere in the world; any and all direct and indirect divisions, continuations, and continuations-in-part of said letters patent; any and all reissues, reexaminations, and extensions of said letters patent; and any and all rights under the International Convention for the Protection of Industrial Property (collectively herein, the "Patent Rights").

any and all rights to recover damages or other equitable relief for any and all past, present, and future infringement or infringements of any of the Patent Rights

All of the foregoing are to be held and enjoyed by Assignee, for its own use and benefit and the use and benefit of its affiliates, successors, legal representatives, and assigns, to the full end of the term for which each of the letters patent and applications for letters patent may be granted and/or extended, as fully and entirely as the same would have been held and enjoyed by Assignors, had this sale and assignment not been made to Assignee

**Representations and Warranties** Assignors hereby represent and warrant to Assignee, its affiliates, successors, legal representatives, and assigns, that, at the time of execution and delivery of these presents, Assignors, as against all persons anywhere other than Assignee, is the lawful owner of a right, title and interest in and to said Inventions and the Patent Rights, and that the same are unencumbered. Assignors have good and full right and lawful authority to sell and convey the same in the manner herein set forth

**Further Assurance.** Assignors Agree to sign all papers and documents, take all lawful oaths and do all acts (now and in the future) necessary or required to be done for the procurement, maintenance, enforcement and defense of the Patent Rights, whenever counsel of Assignee, or counsel of its successors, legal representatives, and assigns, shall advise: that any proceeding in connection with said Patent Rights in any country of the world, including but not limited to interference proceedings, is lawful and desirable; or, that any division, continuation, or continuation-in-part of any of said Patents or any reissue, reexamination or extension of any of said Patent Rights, to be obtained thereon, is lawful and desirable. For this limited purpose, Assignors hereby appoint Assignee as its attorney in fact to execute and deliver to Assignee, on behalf of Assignors, any and all such documents or instruments. This appointment shall be deemed to be a power coupled with an interest and shall be irrevocable.

**Grant of Additional Rights.** Assignors Grant the following individuals the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document:
