CONFIRMATORY ASSIGNMENT

WHEREAS, certain new, original, and ornamental designs are disclosed and described in a design patent application entitled "Remote Control Housing", which can be identified in the U.S. Patent and Trademark Office ("USPTO") by Application No. 29/517,620, filed on February 13, 2015 (the "Design");

WHEREAS, certain new and useful systems, devices, and methods are disclosed and described in a provisional patent application entitled "Remote Control Device," which can be identified in the United States Patent and Trademark Office ("USPTO") by Application No. 62/115,947, filed on February 13, 2015 (the "Utility") (hereinafter, the Design and the Utility are referred to collectively as the "Invention");

WHEREAS, to the extent that we, Fred Bould and Jaime Caso, employees of Bould Design, a California Sole Proprietorship, and residing respectively at 101 Blackburn Avenue, Menlo Park, CA 94025 and 1416 Jefferson Avenue Redwood City, CA 94062 (hereinafter, individually and collectively the "Assignor"), own any right, title, and interest in and to the Invention, Assignor desires to assign any and all such rights, title, and interest to the Invention, Assignor desires to assign any and all such rights, title, and interest to the Invention, and any provisional, non-provisional, continuation, continuation-in-part, divisional, international, foreign, regional and convention applications corresponding thereto, and any and all Letters Patent of the United States and countries and regions foreign thereto which may grant or have granted thereto or be lodged in relation thereto, any reissue or reexamination thereof or to be obtained therefor, any renewals, or substitutes thereof, and any and all priority rights or priority claims, International Convention rights, any and all rights to collect past damages for infringement of any and all Letters Patent of the United States and countries and regions foreign thereto which may be published, which may grant, or have granted thereto or be lodged in relation thereto, and other benefits accruing to or to accrue to Assignor with respect to the filing of applications for patents or design registrations or the securing of patents, design registrations, or other intellectual property rights in any country or region in the world (the "Intellectual Property Rights"); and

WHEREAS, Bould Design, a California Sole Proprietorship, having its principal place of business at 1931 Old Middlefield Way, Unit X, Mountain View, CA 94043 (the "Assignee"), desires to acquire any and all, right, title, and interest of Assignor in and to the Invention and the Intellectual Property Rights;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred and by these presents does hereby sell, assign and transfer to Assignee, and Assignee's legal representatives, successors and assigns, any and all of Assignor's entire right, title and interest in and to the Invention and the Intellectual Property Rights;

UPON SAID CONSIDERATION, Assignor hereby covenants and agrees with Assignee that it has not, and will not, execute any writing or do any act whatsoever conflicting with these presents, and that it will, at any time upon request, without further or additional consideration, but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining the Invention and the Intellectual Property Rights, and execute confirmatory assignments or acknowledgments of this assignment as necessary for full enjoyment of the Invention and the Intellectual Property Rights and for recording in foreign patent offices, and in

enforcing any rights or choses in action accruing as a result of the Invention and the Intellectual Property Rights, by giving testimony in any proceedings or transactions involving the Invention and the Intellectual Property Rights, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of both parties;

UPON SAID CONSIDERATION, Assignor represents and warrants that Assignor has the right, title, and authority to execute this Assignment and to convey any and all right, title, and interest in the Invention and the Intellectual Property Rights, and that Assignor has not conveyed nor will convey hereafter all or part of the Invention and the Intellectual Property Rights to a third party;

ASSIGNOR HEREBY AUTHORIZES Assignee, its successors, and assigns, or anyone it may properly designate, to apply for patents, design registrations, and other intellectual property rights associated with the Invention and the Intellectual Property Rights in any country or region in the world, in its own name if desired, and additionally to claim priority to the filing date of the original application or registration and otherwise take advantage of the provisions of any international conventions.

This Assignment may be executed in two or more counterparts and by facsimile, all of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
