CONFIRMATORY ASSIGNMENT

WHEREAS, we, Jimmy Mays and Nam-Goo Kang of Knoxville, Tennessee, and Qiuyu Zhang and Wenwen Wang of Xi'an, China (hereinafter "Assignors"), have invented certain new and useful improvements in MULTIGRAFT COPOLYMER SUPERELASTOMERS BY EMULSION POLYMERIZATION (hereinafter "Subject Technology") for which a U.S. Provisional Patent Application was filed on June 20, 2014 as U.S. Patent Application No. 62/014,746, a U.S. Provisional Patent Application was filed on September 19, 2014 as U.S. Patent Application No. 62/052,873, and a PCT International Patent Application was filed on June 19, 2015 as PCT International Patent Application No. PCT/US2015/036727 (hereinafter "Applications");

AND, WHEREAS, Assignors and the University of Tennessee Research Foundation, a non-profit organization duly organized and existing under the laws of the state of Tennessee, having its principal office and place of business at 600 South Henley Street, UT Conference Center, Suite 211, Knoxville, Tennessee 37996-4122 (hereinafter "Assignee"), entered to a Basic Agreement, with an Effective Date of September 3, 2014, concerning the Subject Technology and Applications, wherein Assignors assigned and agreed to assign to Assignee the Subject Technology as described in the Basic Agreement including Subject Technology developed after the Effective Date of the Basic Agreement and including any patent applications filed after the Effective Date directed to the Subject Technology.

WHEREAS in the Basic Agreement Assignors agreed to execute any contracts or other documents and to provide any other assistance reasonably requested by Assignee in the patenting, administration, and commercialization of the Subject Technology and in general to effectuate the intent of the Basic Agreement;

AND, WHEREAS Assignee wishes that the above-referenced Applications be included in the listing of Patent Rights in the Basic Agreement.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby confirm having sold, assigned, transferred and conveyed unto the Assignee, its successors and assigns, effective as of the Effective Date in the Basic Agreement, their entire right, title and interest in and to the Subject Technology and Applications, and in and to any and all United States patent applications or foreign patent applications pertaining to said Subject Technology and/or which claim priority to the PCT International Patent Application referenced above and in and to any and all continuations, continuations-in-part, or divisions thereof, and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term for which said Letters Patent may be granted, together with their right to claim the priority of the Applications in all countries in accordance with the Paris Convention, the Patent Cooperation Treaty, or other agreement or national law under which priority can be claimed, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment and sale being confirmed herein had not been made.

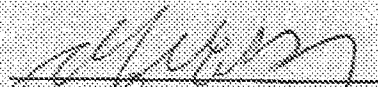

Assignors further confirm having agreed to promptly communicate to said Assignee or its representatives any facts known to them relating to the Subject Technology, to testify in any interference or legal proceedings involving the Applications or Subject Technology, to execute any additional papers which may be requested to confirm the right of the Assignee, its representatives, successors and assigns to secure patent or similar protection for the Subject Technology in all countries and to vest in the Assignee complete title to the Subject Technology and Letters Patent, without further compensation, but at the expense of said Assignee, its successors, assigns and other legal representatives.

Executed this 26th day of April 2016.
