AMENDED AND RESTATED PATENT ASSIGNMENT AGREEMENT

WHEREAS, by resolution of the management committee of TEN Media, LLC (d/b/a TEN Ag Tech Co.), a Delaware Limited Liability Company ("**TEN Media**" or the "**Assignor**"), TEN Media, in accordance with the assignment for benefit of creditors laws of the State of California, transferred ownership of all of its right, title and interest in and to all of its assets to YABC LLC, a California limited liability company (the "**Assignee**"), and in so doing has also designated Assignee to act as the assignee for the benefit of creditors of TEN Media (the "**General Assignment**");

WHEREAS, pursuant to the terms of the General Assignment, all of TEN Media's rights title and interest in its assets have been assigned to the Assignee, including the Assignor's patents and patent applications;

WHEREAS, pursuant to the General Assignment, Assignor and Assignee previously entered into a Patent Assignment Agreement dated as of October 18, 2016 (the "**Original Agreement**");

WHEREAS, the Original Agreement had an incorrect schedule of patents attached thereto; and

WHEREAS, the Assignor and Assignee desire to terminate the Original Agreement and enter into this agreement in order to correctly identify and memorialize the transfer of all of Assignor's right, title and interest in, to and under the patents and patent applications and related rights, set forth on **Schedule A**.

NOW, THEREFORE, BE IT KNOWN, Assignor does hereby convey, assign, transfer, deliver and set over, unto said Assignee, its successors and assigns, the receipt and sufficiency of which is hereby acknowledged, (1) the entire worldwide right, title and interest in and to each and all Letters Patents in the United States and in all foreign countries including, without limitation corresponding Patent Cooperation Treaty patent applications and corresponding National patent applications and all inventions, improvements and discoveries disclosed in said Letters Patents and applications which were held by the Assignor immediately prior to the consummation of the General Assignment, including those set forth in **Schedule A** hereto, and in and to all substitutions, divisions, continuations, continuations-in-part, reexaminations, extensions, renewals and reissues (as applicable) thereof, including without limitation of generality, all rights of priority resulting from the filing of patent applications relating to any of the foregoing as well as any and all choses in action and any and all claims and demands, both at law and in equity, that Assignor has or may have for damages or profits accrued or to accrue on account of the infringement of any of said Letter Patents, patent applications, inventions, improvements and discoveries (or any provisional rights therein), the same to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor if the assignment set forth in this Patent Assignment had not been made; (2) the full and complete right to file patent applications in the name of the Assignor or its designee, at the Assignee's, or its designee's election, on the aforesaid inventions, improvements, discoveries and applications in all countries of the world; and (3) the entire right, title and interest in and to any Letter Patent which may issue thereon in the United States or in any country, and any renewals, revivals, reissues, reexaminations and extensions thereof, and any patents of confirmation, registration and importation of the same.

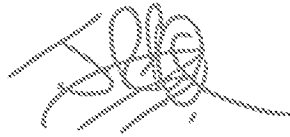

AND, Assignor and Assignee agree that the Original Agreement is hereby terminated in all respects and of no further and effect and is superseded by this agreement.

AND, the Assignor hereby authorizes and requests the United States Patent and Trademarks Office to issue said Letter Patents in accordance with this agreement.
