PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT (“**Agreement**”) is dated December 16, 2016 (the “**Effective Date**”) and is between PLUMgrid, Inc., a Delaware corporation, (“**Assignor**”) and Nicira, Inc., a Delaware corporation (“**Assignee**”). Each of Assignor and Assignee are referred to herein as a “**Party**” or, collectively, as the “**Parties**.”

Under the Asset Purchase Agreement, dated December 16, 2016 (the “**Asset Purchase Agreement**”), Assignor has agreed to assign to Assignee all of Assignor’s right, title and interest in the Patents (as defined in the Asset Purchase Agreement) owned by Assignor, including without limitation, the patents and patent applications set forth below in **Exhibit A**; any and all issued patents, continuations, divisional, renewals, extensions, continuations-in-part, reexaminations, reissue applications, foreign counterparts or any other patent or application that claims priority to any of the foregoing or to the patent applications listed in **Exhibit A**; and any invention disclosed or claimed in any of the foregoing (the “**Assignor Patents**”).

Assignee desires to acquire all of Assignor’s right, title and interest in the Assignor Patents.

In exchange for the consideration paid under the Asset Purchase Agreement, the receipt of which is hereby acknowledged, Assignor does hereby sell and assign unto Assignee all of Assignor’s right, title and interest in the Assignor Patents, including all rights to recover damages for any and all past, current or future infringement, and the right to file applications and make claims of priority to the Properties under the patent laws of the United States, the International Convention for the Protection of Industrial Property, and any other international agreement or convention or the domestic laws of any country in which such application is filed. Assignor hereby authorizes and requests the Commissioner of the United States Patent and Trademark Office, and the corresponding entity or agency in any applicable foreign country, to record Assignee as assignee and owner of the Assignor Patents.

In case of any conflict between the terms and conditions of this Agreement and the terms and conditions of the Asset Purchase Agreement, the terms and conditions of the Asset Purchase Agreement shall govern. This Agreement may be executed in two or more counterparts and by the different parties hereto on separate counterparts, each of which when so executed and delivered will be an original, but all of which together will constitute one and the same instrument. Any such counterpart, to the extent delivered by means of electronic delivery will be treated in all manner and respects as an original executed counterpart and will be considered to have the same binding legal effect as if it were the original signed version thereof delivered in person. This Agreement will be governed by and construed in accordance with the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of law.
