WHEREAS, The Board of Regents of the University of Oklahoma, a constitutional state entity of the State of Oklahoma, United States of America located at 660 Parrington Oval, Room 119, Norman, Oklahoma 73019 (hereinafter referred to as an "ASSIGNEE"), desires to acquire the Undersigned's entire right, title and interest in and to the invention, and in and to said application and any Letters Patent or similar legal protection that may issue thereon in the United States and in any and all foreign countries.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: in consideration of the receipt of good and valuable consideration, which is hereby acknowledged, and in reliance on the Intellectual Property Policy of the Board of Regents of the University of Oklahoma, adopted December 9, 1999 as amended from time to time, a copy of which is attached hereto as Exhibit A and made a part hereof, the Undersigned has assigned and transferred, and by these present does assign and transfer unto said ASSIGNEE, the full, entire, and exclusive right, title, and interest to the invention in the United States and its territorial possessions and in all foreign countries, in and to any and all improvements which are and/or will be disclosed in the application for United States Letters Patent, U.S. Serial No. 14/975,285 filed December 18, 2015 and in and to said application and all applications that claim priority to said U.S. Serial No. 14/975,285 and all provisional, non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for Letters Patent which have been or shall be filed in the United States and all foreign countries on any of said improvements; and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on said improvements; and in and to all utility models, industrial models, certificates of invention, and designs on said improvements.

The Undersigned acknowledge and agree that said ASSIGNEE may apply for and receive Letters Patent for said improvements in its own name; and that, when requested, without charge to but at the expense of said ASSIGNEE, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the Undersigned will execute all divisional, continuing, substitute, renewal, reissue and all other patent applications, and all other like rights of exclusion in any country on any and all said improvements; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to said ASSIGNEE, its successors, assigns and representatives, all facts known to the Undersigned relating to said improvements and the history thereof; and generally do everything possible which said ASSIGNEE, its successors, assigns and representatives shall consider desirable for aiding in securing and maintaining proper patent protection for said improvements and vesting title to said improvements and all applications for patents and all patents on said improvements, in said ASSIGNEE, its successors, assigns and legal representatives.
