ASSIGNMENT

WHEREAS, Actium Biosystems, LLC, a corporation organized and existing under the laws of the state of Texas, and having an address at 7007 Winchester Circle, Suite 140, Boulder, CO 80301 ("ASSIGNOR") had the entire right, title and interest in and to the patents and applications (or provisional applications) for one or more inventions described on the attached schedule for Letters Patent of the United States and other jurisdictions; and

WHEREAS, Endomagnetics Limited (hereinafter "ASSIGNEE"), a corporation organized and existing under the laws of the United Kingdom, and having a usual place of business at 325 Cambridge Science Park, Milton Road, Cambridge, CB4 0WG, United Kingdom, desires to acquire an interest therein, in accordance with agreements duly entered into with us;

WHEREAS, in accordance with an agreement dated June 11, 2014 (hereinafter "AGREEMENT") duly entered into by and between ASSIGNOR and ASSIGNEE for the assignment of rights to the patents and patent applications identified on the attached Schedule 3;

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said AGREEMENT and of other good and valuable consideration, the receipt of which is hereby acknowledged, ASSIGNOR hereby states that ASSIGNOR has sold, assigned and transferred and did thereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, at least as early as the date of said AGREEMENT, ASSIGNOR'S entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the invention(s) described in the patents and patent applications identified on the attached Schedule 3, together with ASSIGNOR'S entire right, title and interest in and to said applications, and such Letters Patent that have or may issue thereon and applications that claim priority thereto under United States law, international convention and/or the laws of the relevant jurisdiction, and such Letters Patent that that have or may issue thereon, including but not limited to non-U.S., international, non-provisional, continuation, divisional, reissue, reexamination, extension, and substitution applications of said applications and such Letters Patent, and any right, title and interest ASSIGNOR may have in applications to which said applications or Letters Patent claim priority; said invention(s), applications and Letters Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held by ASSIGNOR had this assignment and sale not been made; ASSIGNOR thereby conveyed, pursuant to the AGREEMENT all of ASSIGNOR'S rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing or having filed any such applications for Letters Patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment. ASSIGNOR hereby acknowledges that this assignment, being of ASSIGNOR'S entire right, title and interest in and to said invention(s), carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all Letters Patent by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all Letters Patent to ASSIGNEE in its own name as assignee of ASSIGNOR'S entire right, title and interest therein;

AND, ASSIGNOR hereby further agrees for itself and its executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention(s), patent applications and Letters Patent to said ASSIGNEE, its successors, assigns and legal representatives, but at its or their expense and charges, including the execution of papers for filing of non-provisional, substitution, continuation, divisional, reissue, reexamination, and corresponding foreign and international patent applications;

AND, ASSIGNOR hereby further agrees to provide statements or testimony in any interference, reexamination, litigation or other administrative or judicial proceeding in which said invention(s) or any application or patent directed thereto may be involved and to join said ASSIGNEE should said proceeding so require to be maintained;

AND, ASSIGNOR hereby authorizes and requests the Director of the United States Patent and Trademark Office and the empowered officials of all other governments to issue such Letters Patent as shall be granted upon said application, or applications based thereon, to said ASSIGNEE, its successors, assigns or legal representatives.

IN TESTIMONY WHEREOF, ASSIGNOR has hereunto set the hand of its officer so empowered and affixed a seal on the date set forth below.
