PATENT ASSIGNMENT

This PATENT ASSIGNMENT AGREEMENT ("**Patent Assignment**"), dated as of January 31, 2017, is made by **WOODSTREAM CORPORATION**, ("**Seller**"), a Pennsylvania corporation, located at 69 North Locust Street, Lititz, Pennsylvania 17543, in favor of **RADIO SYSTEMS CORPORATION**, ("**Purchaser**"), a Delaware corporation, located at 10427 Petsafe Way, Knoxville, Tennessee 37932, the purchaser of certain assets of Seller pursuant to an **Intellectual Property Purchase Agreement** between Purchaser and Seller, dated as of January 31, 2017 (the "**IP Purchase Agreement**").

WHEREAS, under the terms of the IP Purchase Agreement, Seller has conveyed, transferred, and assigned to Purchaser, certain intellectual property of Seller, and has agreed to execute and deliver this Patent Assignment, for recording with the United States Patent and Trademark Office and corresponding national and regional patent offices in any applicable jurisdictions as appropriate; and

NOW THEREFORE, the parties agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller hereby irrevocably sells, conveys, transfers, and assigns to Purchaser, and Purchaser hereby accepts, all of Seller's right, title, and interest in and to the following (collectively, the "**Assigned IP**"):

(a) the patents and patent applications, and each and every patent that may issue in the future from any of the patent applications, set forth on Schedule 1 hereto, including future non-provisional applications, continuation applications, CIP applications, divisional applications, or reissue patents, as may be granted in any and all countries and group of countries and all continuations-in-part, extensions, reexaminations, and renewals thereof (the "**Patents**");

(b) all rights of any kind whatsoever of Seller accruing under any of the foregoing Patents provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for any past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Seller hereby authorizes the Commissioner for Patents in the United States Patent and Trademark Office, its Assignment Record Services Division and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this Patent Assignment upon request by Purchaser. 3. Terms of the IP Purchase Agreement. The parties hereto acknowledge and agree that this Patent Assignment is entered into pursuant to the IP Purchase Agreement, to which reference is made for a further statement of the rights and obligations of Seller and Purchaser with respect to the Assigned IP. In the event of any conflict or inconsistency between the terms of the IP Purchase Agreement and the terms hereof, the terms of the IP Purchase Agreement shall govern.

4. Counterparts. This Patent Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement.
