- B. Pursuant to a pre-existing legal relationship (by way of employment, contract or otherwise) between the Inventor and the Assignee, the Assignee has acquired all of the Inventor's right, title and interest whatsoever and wherever subsisting in the world in the Application and any invention described in the Application (*Invention*), save, if applicable, for any Residual Interest (as defined below).
- C. The parties wish to enter into this deed to record the Assignee's rights in respect of the Invention.

IT IS AGREED

1. DEFINITIONS AND INTERPRETATION

1.1 Definitions

In this Deed, the following terms have the following meanings.

**Assigned Rights** means all of the following rights subsisting in the world to the extent arising from the Inventor's inventive contribution to the Invention:

- (a) all rights in the Invention and the Application;
- (b) any rights to file any Corresponding Application and any rights arising from any such filing;
- (c) any rights to file any Related Application and any rights arising from any such filing;
- (d) any rights to claim priority from the Application and any Corresponding Application;
- (e) any rights to be granted patents in respect of the Invention, the Application, any Corresponding Application and any Related Application and all rights arising from any such patent;
- (f) any rights to sue for infringement of any of the rights described in paragraphs (a)-(e) above, occurring prior to the date of this Deed; and
- (g) any additional rights outlined in item 4 of the Schedule.

**Corresponding Application** means an application anywhere in the world for a patent made in respect of the Invention and includes an application which claims priority from the Application such as an application made under the Patent Cooperation Treaty, an application made under the Paris Convention, or a complete or non-provisional application.

**Related Application** means any application based on any Corresponding Application such as a divisional application, a continuation application or a continuation-in-part application.

**Residual Interest** means any part of the right, title and interest whatsoever and wherever subsisting in the world in the Application and the Invention which has not been acquired by the Assignee as at the date of this Deed.

In this Deed, unless the context indicates to the contrary:

- (a) headings are for convenience only and do not affect interpretation;
- (b) the singular includes the plural and conversely;
- (c) the meaning of general words is not limited by specific examples introduced by including, or for example, or similar expressions;
- (d) if a word or phrase is defined, its other grammatical forms have a corresponding meaning;
- (e) a reference to an agreement or document (including a reference to this document) is to the agreement or document as amended, varied, supplemented, novated or replaced, except to the extent prohibited by this Deed or that other agreement or document;

Without limiting the preceding sentence, the Inventor irrevocably and unconditionally appoints the Assignee as its agent and attorney to do all acts and execute all documents necessary or desirable for further assuring the title of the Assignee to the Assigned Rights.
