This Patent Assignment is made by AADYN TECHNOLOGY, LLC, a limited liability company duly organized and existing under the laws of the State of Delaware, having its principal office in Paramus, New Jersey ("Assignor"), to STURDY CORPORATION, a corporation duly organized and existing under the laws of the State of North Carolina, having its principal office in Wilmington, North Carolina ("Assignee").

WHEREAS, Assignor is the sole and exclusive owner of the patents listed on Schedule A attached hereto and incorporated herein by reference (collectively, the "Patents").

AND, WHEREAS, Assignee desires to acquire the entire right, title, and interest in the Patents, any related applications, and inventions related thereto.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor by these presents does hereby sell, assign, transfer, and convey unto the Assignee, its successors and assigns, the entire right, title, and interest in and to the Patents, any related applications, and inventions related thereto, and in any improvements previously or in the future made or acquired by Assignor, and in and to any and all Letters Patents of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term or terms for which said Letters Patents are or may be granted, or reissued, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, together with all claims for damages by reason of past infringement of the Patents, with the right to sue for and collect the same for Assignee's own use, and for the use of Assignee's successors, assigns, or other legal representatives.

Assignor further warrants and represents that, at the time of the execution and delivery of these presents, Assignor possesses full title to the Patents, any related applications, and inventions related thereto, and that he has the unencumbered right and authority to make this assignment.

Assignor further covenants and agrees, and likewise binds its successors, assigns, or other legal representatives, to promptly communicate to said Assignee or its representatives any facts known to it relating to said Patents, any related applications, and inventions related thereto, to
