PATENT ASSIGNMENT

THIS PATENT ASSIGNMENT, is made and entered into as of the 19th day of September, 2014, by and between **MARWAN HANNON**, residing at 982 Junipero Serra Blvd. San Francisco, CA 94132 (hereinafter "Assignor"), and **DRIVING MANAGEMENT SYSTEMS, INC.**, a Delaware corporation, located at 982 Junipero Serra Boulevard, San Francisco, California 94132 (hereinafter "Assignee").

WHEREAS, Assignor is the owner the entire right, title, and interest in and to the patents and patent applications appearing on Schedule "A" attached hereto (hereinafter the "Patent Assets"); and

WHEREAS, Assignee is desirous of acquiring all of Assignor's right, title, and interest in and to the Patent Assets. The term "Assignee" includes successors, legal representatives and assigns.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor, intending to be legally bound hereby, contributes, conveys, assigns, transfers, and sets over to Assignee, Assignor's entire right, title, and interest in and to the Patent Assets; as well as all divisions, continuations thereof; and all patents which may be granted thereon and all reissues, renewals, and extensions of any of the foregoing; and all applications for patents which may hereafter be filed for inventions embodied by said Patent Assets, and all patents which may be granted for said inventions; and all rights of priority based upon the filing of said applications which are created by any law, treaty or

international convention and the full right to sue for past, present or future infringement of the Patent Assets, these rights to be held and enjoyed by Assignee, as fully as the same would have been held and enjoyed by Assignor had this Assignment not been made. Assignor hereby authorizes and requests the United States Patent and Trademark Office, and any foreign patent offices, to issue all patents to Assignee, in accordance with the terms of this Assignment. And for the consideration aforesaid, Assignor agrees that it will, upon request, and without expense to Assignee, communicate to said Assignee, any material facts known to it respecting the Patent Assets and said applications, and testify in any legal proceeding, execute additional lawful papers, all divisional, continuing and reissue applications, make all rightful oaths and generally take action reasonably necessary to aid said Assignee, to obtain any attendant rights in any and all countries and generally do all other lawful acts reasonable and necessary to give effect to and record this Assignment.

Assignor warrants that, to the best of its knowledge, all of its United States patents and/or patent applications that are to be transferred to Assignee in accordance with this Assignment, appear on Schedule A. To the extent that any United States patents and/or patent applications owned by Assignor, that are to be transferred to Assignee as set forth above, have been omitted from Schedule A, Assignor, intending to be legally bound, hereby presently conveys, assigns, transfers, and sets over to Assignee, Assignor's entire right, title, and interest in and to said omitted United States patents and/or patent applications through this Assignment. Assignor further agrees to subsequently execute all necessary assignment documents for said omitted patents and/or patent applications in favor of Assignee, at the request of Assignee and without expense to Assignee.

Assignor does hereby covenant that it has the full right to convey the entire interest herein assigned, and that Assignor has not executed, and will not execute, any agreement in conflict herewith.

IN WITNESS WHEREOF, Assignor and Assignee have caused this instrument to be signed by a duly authorized corporate officer effective as of the date first indicated above.
