August 15, 2005

Tina Xiaoyun Liu
7591 Osler Street
Vancouver, BC
V6P 4C8

Dear Tina,

On behalf of BRI Biopharmaceutical Research Inc. (BRI), I am pleased to provide you this letter of offer for employment of the Research Scientist position. The starting salary for this position will be \$60,000 per annum and your first day of work is on August 15, 2005. Periodic performance review will be performed at 3-months, 6-months, 9-months and 12-months. Salary might be adjusted at the time of the review based on the performance. This position is subjected to a 6 months probation period. In addition to the base salary, BRI also offers extended health benefit and yearly profit sharing performance bonus. Preference shares are offered to key individuals after their probation period.

During the probation period, you will be acting in the position on an interim basis and BRI is committed to provide you opportunities to mutually review your progress during this period. A copy of the job description for the position is attached for your record.

A copy of BRI's Employment Manual listed with BRI's company policy is also provided. I hope to point out that section 2.0 "Confidentiality and Inventions" is very important, as maintaining the confidential nature of the way we do business and what our business includes is critical. In addition, it is a requirement for all employees to understand and to agree that all discoveries, inventions, or intellectual property to be made in the course of or as a result of his or her employment of BRI shall vest in and be the exclusive property of BRI.

You will find two copies of this letter enclosed. The first is for your records, the second is to be signed by you to acknowledge your acceptance of employment and to indicate your agreement with the terms outlined in this letter.

Please return the signed copy to me at your earliest convenience.

Yours truly,

Clara Faan
VP - Business Development / COO
