ASSIGNMENT

WHEREAS, the undersigned, to wit, Andreas H. von Flotow, Corydon C. Roeseler and Daniel Reiss (hereinafter "ASSIGNORS"), are the lawful owners of an invention (the "INVENTION") described in United States Patent Application Serial No. 14/597,933 (the "PATENT APPLICATION"), which is entitled "HELICOPTER-MEDIATED SYSTEM AND METHOD FOR LAUNCHING AND RETRIEVING AN AIRCRAFT," was filed in the U.S. Patent and Trademark Office on January 15, 2015, and is identified by Attorney Docket No. 025107-0043;

AND WHEREAS, Hood Technology Corporation (hereinafter "ASSIGNEE"), an Oregon Corporation having its principal office and place of business at 1750 Country Club Road, Hood River, OR 97031, desires to acquire the entire right, title, and interest in the INVENTION and the PATENT APPLICATION;

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, ASSIGNORS hereby sell, assign, transfer, and set over unto ASSIGNEE, its successors, assigns, nominees, or legal representatives, the full and exclusive right, title, and interest in and to the INVENTION and the PATENT APPLICATION in the United States and in all countries foreign to the United States, to be held and enjoyed by ASSIGNEE, its successors, assigns, nominees, or legal representatives as fully and entirely as the same would have been held and enjoyed by ASSIGNORS had this ASSIGNMENT not been made, including, without limitation:

- (1) all right, title, and interest to make: (i) applications for patent of the United States on the INVENTION, (ii) applications for patent of countries foreign to the United States on the INVENTION, and (iii) international applications under the Patent Cooperation Treaty (PCT) on the INVENTION;
- (2) all right, title, and interest to make: (i) applications for patent of countries foreign to the United States that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION, and (ii) international applications under the Patent Cooperation Treaty (PCT) that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION;
- (3) all right, title, and interest to make: (i) related applications for patent of the United States that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION; and (ii) related applications for patent of countries foreign to the United States that claim priority in whole or in part, directly or indirectly, to one or more applications for patent in countries foreign to the United States that claim priority to the PATENT APPLICATION, including but not limited to any and all continuations, divisionals, continuations-in-part, reissues, extensions, reexaminations, and substitutions thereof;

- (4) all right, title, and interest in and to any patents issuing from any applications for patent of the United States on the INVENTION including, but not limited to: (i) any patents of the United States issuing from the PATENT APPLICATION; and (ii) any patents issuing from any related applications for patent of the United States that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION, together with all improvements thereon and betterments thereof;
- (5) all right, title, and interest in and to any patents issuing from any applications for patent of countries foreign to the United States on the INVENTION including, but not limited to: (i) any patents issuing from any applications for patent of countries foreign to the United States that claim priority to the PATENT APPLICATION; and (ii) any patents issuing from any related applications for patent of countries foreign to the United States that claim priority in whole or in part, directly or indirectly, to one or more applications for patent in countries foreign to the United States that claim priority to the PATENT APPLICATION, together with all improvements thereon and betterments thereof;
- (6) any and all rights to sue for any past, present, and future infringement of any patents issuing from any applications for patent of the United States on the INVENTION including, but not limited to: (i) any patents of the United States issuing from the PATENT APPLICATION; and (ii) any patents issuing from any related applications for patent of the United States that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION, including, but not limited to, the right to collect and receive any damages, royalties, or settlements for such infringements; all rights to sue for injunctive or other equitable relief; and all causes of action relating to any patents issuing from any applications for patent of the United States on the INVENTION including, but not limited to: (i) any patents of the United States issuing from the PATENT APPLICATION; and (ii) any patents issuing from any related applications for patent of the United States that claim priority in whole or in part, directly or indirectly, to the PATENT APPLICATION; and
- (7) any and all rights to sue for any past, present, and future infringement of any patents issuing from any applications for patent of countries foreign to the United States on the INVENTION including, but not limited to: (i) any patents issuing from any applications for patent of countries foreign to the United States that claim priority to the PATENT APPLICATION; and (ii) any patents issuing from an related applications for patent of countries foreign to the United States that claim priority in whole or in part, directly or indirectly, to one or more applications for patent in countries foreign to the United States that claim priority to the PATENT APPLICATION, including, but not limited to, the right to collect and receive any damages, royalties, or settlements for such infringements; all rights to sue for injunctive or other equitable relief; and all causes of action relating to any patents issuing from
