Now, therefore, for good and valuable consideration, receipt of which is acknowledged, I have agreed to assign and transfer and do hereby assign and transfer unto the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College, its successors and assigns, my entire right, title, and interest in and to the said invention, and the provisional application, and PCT international application, including all national stage applications corresponding to the PCT application in the various countries designated or elected in the PCT international patent application; and in and to any division, continuation, or continuation-in-part of any of the above said applications; and in and to any and all Letters Patent and reissues and extensions thereof, of the United States of America and of all other countries (including the right to apply for Letters Patent in any country in its own name, and to claim any priority rights for such applications to which such applications are entitled under international conventions, treaties, or otherwise); including the right to claim priority from United States provisional patent application Serial No. 62/016,693, filed June 25, 2014, which have been or may be granted on any of the foregoing to be held and enjoyed as fully and exclusively as they would have been by us had this assignment and transfer not been made
