ASSIGNMENT

This instrument of assignment ("Assignment") is entered into by and between Jack A. Hunt as a named inventor hereinafter sometimes "Assignor" on the one hand, and JH Quantum Technologies, Inc., hereinafter sometimes "Assignee" on the other hand.

WHEREAS, the complex patent prosecution activities and imperfect record-keeping by the Assignee and its predecessors-in-interest over the past decade with respect to the plasma technology being developed has resulted in lost documents including specifically copies of previously executed assignment documents giving rise to the need for this re-execution thereof.

NOW THEREFORE, for and in consideration of the mutual covenants herein contained as well as of other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, it is covenanted and agreed by and between the parties hereto that:

A. By these presents, Assignor hereby grants, sets over, assigns, transfers, conveys, and acquits unto Assignee all of Assignor's right, title, and interest of whatsoever kind or nature now existing or hereafter arising in or with respect to each and every item referenced in the Schedule of Patents made a part hereof as Attachment I, collectively "The Patents".

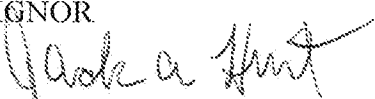

B. This Assignment shall vest in Assignee the exclusive, worldwide right: (i) to regulate and control by license, sublicense, affiliation, or other agreement the practice and/or use of The Patents; (ii) to otherwise pursue the Commercialization of the Patents and the manufacture, sale, and use of products and/or services relying on The Patents; (iii) to sue and collect for its own use and benefit all claims for damages by reason of past infringement or use of The Patents; and, (iv) to pursue all remedies of whatsoever kind or nature for its own use and benefit relating to the past, present, or future use of The Patents.

C. Assignor shall assist Assignee in obtaining patent protection for the subject invention(s), and the perfection of the title thereto in Assignee, and shall execute all necessary and/or useful papers and make all rightful oaths and declarations in connection therewith, all without charge to Assignee but at its expense.

IN WITNESS WHEREOF, the Assignor has hereunto set its hand and seal as of this 28th day of June 2015.
