ASSIGNMENT

The undersigned (hereinafter "Assignors") of the mailing addresses indicated below are the inventors of certain inventions and embodiments thereof (hereinafter collectively the "Invention") described in United States Design Patent Application Serial Number 29/595,010, filed on February 24, 2017, titled **BRIDGING CLIP WITH RIBS** (hereinafter the "Application").

Clarkwestern Dietrich Building Systems LLC, a limited liability company, having a principal place of business at 9100 Centre Pointe Drive, Suite 210, West Chester, Ohio 45069, and its successors, assigns, and legal representatives (hereinafter collectively "Assignee") desires to secure the entire right, title and interest in and to the Invention and Application.

For good and valuable consideration, the receipt and adequacy of which is acknowledged, Assignors hereby:

1. Sell, assign and transfer to Assignee the entire right, title and interest in and to the Invention, the Application, any other applications to which the Application claims priority benefit, including but not limited to related provisional applications, any other patent applications based in whole or in part upon the Invention or Application in any country (including, international design applications under the Hague System, nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part, and continued prosecution applications), all patents and other forms of intellectual property protection which may be granted thereon (including all reissues, reexaminations, and extensions thereof), and all priority rights appertaining thereto;
2. Sell, assign, and transfer to Assignee the entire right to claim the benefit of priority to the Application;
3. Authorize Assignee to file applications for patents and other forms of intellectual property protection on the Invention in any country in the name of Assignee, or otherwise as Assignee may deem advisable;
4. Authorize and request the Director of the United States Patent and Trademark Office, and such patent office officials in foreign countries as are duly authorized by their laws to issue patents, to issue any patents on the Invention to Assignee as the owner of the entire right, title, and interest therein or otherwise as Assignee may direct;
5. Agree, without expense to Assignors but without further consideration, to carry out in good faith the intent and purpose of this Assignment by executing all international design applications under the Hague System, nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part, continued prosecution, reissue, and all other patent applications based on the Invention; executing all rightful oaths, assignments, powers of attorney and other papers; communicating to Assignee all facts known to Assignors relating to the Invention and the history thereof; and generally, doing everything reasonably possible which Assignee shall consider desirable for aiding in securing, maintaining, and enforcing proper

protection for the Invention and the Application and for vesting title in Assignee to the Invention and all patent applications and patents based on the Invention, including, but not limited to, the Application;

6. Represent and warrant that Assignors have the full right to convey to Assignee the entire interest to the Invention and Application, and that Assignors have not executed, and will not execute, any agreement in conflict herewith; and

7. Authorize Frost Brown Todd LLC to insert in this Assignment the serial number and filing date of the Application or any other information which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this Assignment.
