ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

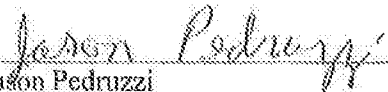

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, Jason Pedruzzi, an individual residing at 2633 W. Keywest Court, Wichita, KS 67204 ("Assignor"), for himself and his successors and assigns, hereby assigns to FilConn Inc, an Arizona corporation whose address is 3324 N. San Marcos Place, Chandler, AZ 85225, its successors and assigns ("Assignee"), all right, title and interest in and to the patents and patent applications set forth on Schedule A attached hereto and made a part hereof, together with all rights to any inventions and discoveries disclosed therein, any divisional, renewal, substitute, continuation or convention applications based in whole or in part upon any of such inventions or discoveries or upon such patents and/or patent applications, and any letters patent and extension or reissue patents hereafter granted in respect of such inventions and/or discoveries or any such patents and/or patent applications (collectively, the "Patents").

This Assignment is being executed in connection with a certain Stock Purchase Agreement, dated April 29, 2016, pursuant to which the shareholders of FilConn Inc, an Arizona corporation, are selling all of their interest in and to FilConn Inc. to Assignee, and Assignor is selling, conveying, transferring, assigning and delivering to Assignee the Patents.

Assignor represents to Assignee that Assignor has not assigned or transferred to any third party (other than Assignee) any rights that Assignor may have in or to any of the Patents, in whole or in part, including without limitation any security interest that may have been granted to a financial institution or other lender.

This Assignment of Patents and Patent Applications includes the right to file patent applications in any countries with respect to any of the Patents in Assignee's own name or such other name(s) as Assignee may choose, the right to claim for any and all damages by reason of past infringement of the rights so sold, transferred and assigned, and the right to sue for and collect the same for Assignee's own use and enjoyment and for the use and enjoyment of its successors and assigns, the same to be held and enjoyed by Assignee, its successors and assigns, to the full end of the term thereof. Assignor warrants to Assignee and its successors and assigns that Assignor is the sole owner of the Patents and that such Patents and all right, title and interest thereto are not subject to any lien, claim, license, royalty arrangement or dispute. Assignor authorizes the Commissioner of Patents to issue or transfer to Assignee all letters patent issued with respect to any of such Patents.

IN WITNESS WHEREOF, Assignor has executed this Assignment of Patents and Patent Applications as of this 29th day of April, 2016.

Jason Pedruzzi
