We agree that, when requested, we will, without charge to said Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns and legal representatives or nominees.

I agree to promptly and fully disclose and assign to RespCare or its nominee all works, inventions, discoveries and improvements patentable or otherwise made or conceived by me, alone or jointly with others during any past or future period of my employment with RespCare that are related to RespCare's business or result from any work done by me for RespCare and will execute and deliver to RespCare, whether before or after termination of my employment, all copyright applications, patent applications, assignments and other documents deemed necessary by RespCare to enable it to have complete ownership of such works, inventions, discoveries and improvements and assist RespCare in every proper way and entirely at RespCare expenses to obtain for its own benefit copyrights and/or patents on such works, inventions, discoveries and improvements in any and all countries; it being understood that all such works, inventions, discoveries and improvements are and shall remain RespCare's property whether or not so disclosed, assigned or patented.
