WITNESSETH: That,

WHEREAS, I believe I am the original inventor or an original joint inventor of an invention described in United Kingdom Patent Application No. 1416383.6 filed on September 17, 2014, and in International Patent Application No. PCT/EP2015/071207 filed on September 16, 2015, and in a corresponding U.S. patent application filed or to be filed entitled **DEVICE FOR HEART REPAIR**, and whereas I authorize representatives of Dehns Patent and Trade Mark Attorneys (having a principal place of business in London, United Kingdom) and its appointed agents to enter the following information identifying such U.S. patent application when known: U.S. Patent Application No. 15/511,365 filed on March 15, 2017 (with the foregoing United Kingdom, International, and U.S. patent applications being collectively referred to as the Applications); and

WHEREAS, **CARDIOMECH AS**, a corporation having a principal place of business at Udbyes gate 3a, N-7030, Trondheim, Norway, hereinafter referred to as Assignee, is desirous of acquiring the entire right, title and interest in and to said invention as described in the specification executed herewith, the Applications, any corresponding applications, and any and all Letters Patent which shall be granted therefor;

NOW, THEREFORE, To All Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I hereby

sell, assign, transfer and set over unto the Assignee, its successors and assigns, the entire right, title and interest in and to the invention and the Applications and in and to any and all foreign patent applications filed on the invention based on and claiming priority to any one of more applications of the Applications, and in and to any and all Letters Patent of the United States and foreign countries which may hereafter be granted therefor, and in any and to any and all continuations, continuations-in-part, substitutions, divisions or reissues of the Applications and of said Letters Patent, the same to be held and enjoyed by the Assignee, for its interest, and for its own use and behalf, and the use and behalf of its successors and assigns, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by me had this assignment and sale not been made, and I hereby authorize and empower the Assignee, its successors, assigns or nominees to file applications for any Letters Patent or other form of protection on said invention in its own name or in the name of its successor, assignee, or nominee, in any and all countries where it may desire to file such applications and where said applications may be filed by another than the inventor;

And for the consideration aforesaid, I further covenant and agree that, at the time of the execution and delivery of these presents, I have the unencumbered right and authority to make this assignment, and I have not executed any prior assignment(s) or created any encumbrances relating to any one or more of the Applications mentioned above to any person or entity other than the Assignee identified herein;

And for the consideration aforesaid, I hereby covenant and agree to and with the Assignee, its successors and assigns, that I will, whenever its counsel or the counsel of its
