## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

---

Inventor: Dan Liu

Application Serial Nos.: US 29/589,750

Docket No.: 15-1120D1

Title: Sexual Stimulation Device

---

The **inventor identified herein** (hereinafter the “**Assignor**”) invented certain improvements, innovations, inventions, concepts, ideas, compositions, compounds, technologies, methods, processes, assemblies, components, designs, or discoveries, (collectively hereinafter referred to as the “**Work**”) as described in U.S. Design Patent Application Serial Number 29/589,750 (“**Patent Application**”) or included in, embodied in, or related to compositions, compounds, systems, prototypes, products, product development, or research associated with or performed on behalf of the Assignee identified below.

**Shenzhen Aigan Technology Co. Ltd.**, a corporation having a place of business at Room 305, 25 Xili Street Industrial Village, Nanshan District, Shenzhen, Guangdong, 518055 China (“**Assignee**”) desires to acquire all rights, title, and interest in and to the Patent Applications and the Work.

Therefore, for valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest throughout the world in the Patent Applications (as well as such rights in any divisions and continuations in whole or part or substitute applications) and the Work. Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest in all foreign patent applications that have been or may be filed claiming priority to the Patent Applications. Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest in all foreign patents that may issue from foreign patent applications (as well as divisions and continuations in whole or part or substitute applications) filed claiming priority to the Patent Applications. Therefore, Assignor acknowledges that Assignor has sold, assigned, conveyed, and transferred to Assignee, Assignee’s successors, and Assignee’s assigns the entire right, interest, and title throughout the world in the Patent Applications and the Work, including all patent properties filed or issued upon the Patent Applications and the Work, and including but not limited to:

- **U.S. Design Patent Application No. 29/589,750**; filed January 4, 2017; and entitled Sexual Stimulation Device
- All utility patent applications and design patent applications claiming the benefit of or priority to at least one of the patent applications described above
- All patent applications (including U.S. applications, foreign applications, divisionals, continuations, continuations-in-part, reissues, and extensions) claiming the benefit of or priority to the Patent Applications and all patents which may be granted thereon
- All patent applications and patents related to the Work
- All rights of priority based on the Patent Applications and the Work

Assignor authorizes the United States Patent and Trademark Office and all foreign patent offices to issue any patents resulting from the Patent Applications and the Work to Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee’s successors and assigns at least as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to cooperate with Assignee in the prosecution of the Patent Applications, foreign counterparts of the Patent Applications, and any application for patent claiming priority to the Patent Applications. Assignor further agrees to (a) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (b) perform such other acts as Assignee lawfully may request to obtain

Intellectual Property Assignment Agreement  
Docket No.: 15-1120D1

or maintain the Patent Applications, foreign counterparts of the Patent Applications, and any application for patent claiming priority to the Patent Applications in any and all countries. Assignor hereby covenants and agrees to timely communicate to Assignee any facts known to the Assignor related to the Patent Applications or the Work including information necessary to meet the Assignor's duty to disclose information that is material to patentability as defined in 37 CFR § 1.56. Assignor hereby covenants and agrees to do everything reasonably possible to help the Assignee seek, obtain, and enforce patent protection related to the Patent Applications and the Work.

Assignor hereby assigns, conveys, and transfers to Assignee all claims for damages and all remedies (including past, present, and future damages and remedies) arising from or related to the Patent Applications, the Work, and the interests assigned herein.
