which are disclosed and/or claimed in U.S. Design Patent Application No. 29/565,123 filed on May 18, 2016, U.S. Design Patent Application No. 29/565,137 filed on May 18, 2016, and U.S. Design Patent Application No. 29/565,142 filed on May 18, 2016, copies of which have been provided to me and which I have reviewed; in, to, and under the said application and any and all utility, design, provisional, continuation, continuation-in-part, continued prosecution, and divisional applications thereof; in, to, and under my exclusive right to make and prosecute any and all applications for patents, reissues, renewals, and extensions thereof; in, to, and under any and all patents and Convention and Treaty rights of all kinds, in the United States of America and all other countries throughout the world, for all such subject matter; in, to, and under any and all know-how and/or confidential, proprietary, and/or trade secret information relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to sue for present, past, and future infringement or misappropriation relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to enforce any rights and file any causes of action, in law and/or equity, relating to any such subject matter, applications, patents, and/or technology; and in, to, and under the right to all income, royalties, fees, damages, and payments now or hereafter due or payable in respect to any such subject matter, applications, patents, and/or technology. The right, title, and interest is to be held and enjoyed by ASSIGNEE and its successors and assigns as fully and exclusively as it would have been held and enjoyed by ASSIGNOR had this assignment not been made. I request the applicable official(s) having authority to issue patents and/or corresponding rights to issue same on the subject matter of the said invention to ASSIGNEE, its successors and assigns, and, if called upon by ASSIGNEE, its successors, assigns, or legal representatives, I agree to promptly sign any and all documents necessary to secure any and all such patents and/or rights and for issuance of same to ASSIGNEE or its successors and assigns.

I covenant with ASSIGNEE, its successors, assigns, and legal representatives, that the interest and property hereby conveyed is free from all prior assignment, grant, mortgage, license, or other encumbrance.

I confirm that I have not made any agreement in conflict with this Assignment.
