WHEREAS Assignor has invented a new and useful ornamental design for a capsule ("Invention"), disclosed in a United States Patent Application identified below ("Patent Application");

WHEREAS Assignee wishes to acquire all right title and interest in the Invention, and Assignor wishes to sell, transfer such interest to the Assignee;

1. Patent Application. The Patent Application can be identified by patent application number 29/593,950.

4. Representations and Warranties. Assignor hereby represents and warrants that it has the legal right and authority to execute this Agreement, and to validly assign the entire interest in the Patent Application to Assignee. Assignor further represents and warrants that it has not executed any other agreement that would conflict with the terms of this Agreement, nor shall it execute any such agreement in the future.
5. Further Actions. Assignor hereby agrees to execute any further agreements and to take any further actions necessary to aid Assignee in perfecting its interest in the Patent Application and any patent granted thereon, and in enforcing any protections or privileges deriving from the Patent Application of patent issued thereon.
6. Governing Law. This Agreement shall be construed in accordance with, and governed in all respects by, the laws of the State of New York, without regard to conflicts of laws principles.
7. Counterparts. This Agreement may be executed in several counterparts, each of which shall constitute an original and all of which, when taken together shall constitute one agreement.
8. Severability. If any part or parts of this Agreement shall be held unenforceable for any reason, the remainder of this Agreement shall continue in full force and effect. If any provision of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, and if limiting such provision would make the provision valid, then such provision shall be deemed to be construed as so limited.
